DEED OF ASSIGNMENT

This Deed is dated 22nd June 2020 (“the Effective Date”)

BETWEEN:

- 1) **Rational FT Enterprises Limited**, a company incorporated and existing under the laws of the Isle of Man with company number 008471V whose registered office is at Douglas Bay Complex, King Edward Road, Onchan, Isle of Man, IM3 1DZ (the “Assignor”); and
- 2) **Rational Intellectual Holdings Limited**, a company incorporated and existing under the laws of the Isle of Man with company number 006470V whose registered office is at Douglas Bay Complex, King Edward Road, Onchan, Isle of Man, IM3 1DZ (the “Assignee”).

BACKGROUND

- (A) In order to better manage the intellectual property rights of the companies in the Stars Interactive Holdings (IOM) Limited corporate structure, it has been agreed to transfer certain intellectual property to the Assignee.
- (B) The Assignor has agreed to assign the Patents (as defined below) to the Assignee on the terms set out in this agreement.

IT IS HEREBY AGREED AS FOLLOWS:

1. DEFINITIONS

“Main Agreement” means the purchase agreement in relation to the Patents entered into on even date between the Assignor and the Assignee.

“Patents” means the granted patents listed in the Schedule to this Assignment.

2. ASSIGNMENT

Pursuant to the Main Agreement, the Assignor hereby assigns to the Assignee absolutely, and the Assignee hereby accepts, all its right, title and interest in and to (i) the Patents; and (ii) all and any inventions disclosed in the Patents, together with all rights, powers, privileges and immunities arising thereunder or conferred thereby, including without limitation:

- a) in respect of each and any invention disclosed in the Patents, the right to file an application, claim priority from such application, and prosecute and obtain grant of patent or similar protection in or in respect of any country or territory in the world;
- b) the right to bring, make, oppose, defend, appeal proceedings, claims or actions and obtain relief (and to retain any damages recovered) in respect of any infringement, or any other cause of action arising from ownership, of any patents granted on any of the Patents in any jurisdiction whether occurring before, on, or after the Effective Date.

3. FUTHER ASSURANCE

The Assignor agrees at its own expense to do and/or procure the doing of all things and to sign and execute and/or procure the signing and execution of all such documents and deeds as may be required in order to perfect and protect or enforce any of the Patents assigned to the Assignee or

otherwise to give full effect to this Assignment. To the extent that (notwithstanding the provisions of this Assignment) any of the Patents do not vest automatically in the Assignee, the Assignor shall hold the same on trust for the Assignee.

4. WARRANTY

Each party warrants that it has full capacity and authority to enter into and perform this Assignment, and that those signing this Assignment are duly authorised to bind the party for whom they sign.

5. SEVERABILITY

Each provision contained in each clause and sub-clause of this Assignment is enforceable independently of each of the others and a provision's validity will not be affected if any of the others is invalid. If any of those provisions is void but would be valid if some part of the provision were deleted or modified, the provision in question shall apply with such modification as may be necessary to make it valid.

6. GOVERNING LAW AND JURISDICTION

This Assignment and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and construed in accordance with the laws of England. The parties irrevocably agree that the courts of England shall have exclusive jurisdiction in relation to any matter concerning this Assignment.

7. COUNTERPARTS

This Assignment may be executed in any number of counterparts, all of which taken together will constitute one and the same Assignment, and any party may enter into this Assignment by executing a counterpart.
