Assignment of Invention and Patent Rights

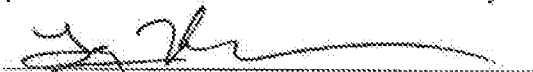

Whereas, we, Tyrone Hugh Hazen, Byron Jay Linton Jr., and Christina Joy Linton (together referred to herein as "assignors") are the inventors of a certain invention entitled:

Insulating Sleeve for a Beverage Container

the specification forming part of a design patent application to be filed in the United States Patent and Trademark Office;

Whereas, Puffin Coolers, LLC, an Oregon limited liability company (referred to as herein as "assignee") with an address at 2843 N.W. Lolo Drive, #276, Bend, Oregon 97703 desires and is entitled to acquire our entire right, title and interest in the same;

Now, Therefore, for good and valuable consideration, the receipt of which is hereby acknowledged, we the assignors hereby sell, assign and transfer to the assignee, the full and exclusive right, title and interest in and to said invention and patent rights throughout the world, including foreign patent priority rights, the right to file and prosecute provisional and related US non-provisional application(s) international applications under the Patent Cooperation Treaty, the right to file and prosecute applications under the European Patent Convention, and the right to file and prosecute design patents and industrial designs; said invention, application and letters patent and registrations in this or any foreign country, and all divisions, continuations, reissues and extensions thereof, to be held and enjoyed by assignee for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent and registrations may be granted in this or any foreign country, as fully and entirely as the same would have been held by us had this assignment and sale not been made, and covenant that we have full right so to do, and agree that we will communicate to assignee, or its successors and assigns, any facts known to us respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and do everything possible to aid assignee, its successors and assigns to obtain and enforce proper patent protection for said invention in this or any foreign country.
