## **ASSIGNMENT**

Rishabh Jain and Claire E. Kalb, also called the "Assignors" have invented new and useful **Packaging Patches Having Disinfecting Sealing Layer**, for which an International Patent Application was filed on December 28, 2017, as Application Number PCT/US2017/068784; and

Bemis Company, Inc., a corporation organized and existing under the laws of the State of Missouri, having a principal office and place of business at One Neenah Center 4<sup>th</sup> Floor, 134 E. Wisconsin Avenue, Neenah, Wisconsin 54956, also called the "Assignee," is desirous of acquiring the entire right, title and interest in, to and under the invention, the patent application identified above, and any patents which may be obtained for the invention, as more fully set forth below.

Therefore, to all whom it may concern, for and in consideration of the sum of one dollar (\$1.00) and other valuable and legally sufficient considerations, the receipt of which by the Assignors from the Assignee is acknowledged, the Assignors have sold, assigned and transferred, and by these statements, do sell, assign and transfer to the Assignee the entire right, title and interest in, to and under the invention and patent application identified above and any patent of the United States that may issue for the invention, as well as all continuations, continuations-in-part, divisions and reissues in the United States, and any patents for the invention in all countries foreign to the United States, for the Assignee to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns to the full end of the term of all and any patents that may issue for the invention.

Each of the Assignors covenants and agrees, for himself or herself and his or her legal representatives, that he or she will assist the Assignee in the prosecution of the patent application identified above; in the making and prosecution of any other applications for patent that the Assignee may elect to make covering the invention identified above, including but not limited to any application for reissue, application for reexamination or any proceeding in the U.S. Patent Office or foreign patent office affecting the invention, investing in the Assignee exclusive title in, to and under all and any other applications and patents; and in the prosecution of any interference, reexamination or opposition which may arise involving the invention or any patent application or patent contemplated for this invention. Each of the Assignors further covenants and agrees that he or she will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to fully carry out the terms of this Assignment.

The Commissioner for the U.S Patent Office is authorized and requested to issue any patents to the Assignee in accordance with the terms of this Assignment.
