The above-identified individual (hereinafter "Assignor") is the inventor of an invention entitled "Joining Element" as illustrated and described in U.S. patent application no. 16/862,929, filed on April 30, 2020.

PROFIL Verbindungstechnik GmbH & Co. KG, having a principal place of business at Otto-Hahn-Strasse 22 - 24, 61381 Friedrichsdorf, Germany, its successors and assigns ("Assignee"), is desirous of acquiring the entire right, title and interest in said Invention, all applications for and all letters patent issued on said Invention.

For good and valuable consideration, the receipt and sufficiency of which is acknowledged, the Assignor, intending to be legally bound, does hereby sell, assign and transfer to Assignee and Assignee's successors, assigns and legal representatives the entire right, title and interest in said Invention and all patent applications thereon, including, but not limited to, the Patent Application identified above, and all divisions and continuations thereof, and in all letters patent, including all reissues and reexaminations thereof, throughout the world, including the right to claim priority under the Paris Convention or other treaty.

It is agreed that the Assignor shall be legally bound, upon request of the Assignee, to supply all information and evidence relating to the making and practice of said Invention, to testify in any legal proceeding relating thereto, to execute all instruments proper to patent the invention throughout the world for the benefit of the Assignee, and to execute all instruments proper to carry out the intent of this instrument. If any Assignor is required to testify in any legal proceeding relating to said Invention, Assignee shall make best efforts to avoid interference with Assignor's current employment or occupation. Further, any Assignor not employed by Assignee during said proceeding shall be paid directly a reasonable fee and reimbursed for all reasonable expenses incurred in performance of all activities relating to said proceeding. Assignee shall

hold each Assignor harmless for any costs, damages or expenses incurred by Assignee as a result of any of the Assignor's performance of obligations set forth herein.

Assignor represents and warrants: that Assignor is the original, first and sole inventor of the Invention; that at the time of making this assignment, Assignor was fully entitled to make the foregoing conveyance; that there are no outstanding grants, shop rights or encumbrances upon or affecting said Invention or any patents issuing from the Patent Application or any other patent application claiming priority thereto, other than the rights of Assignee; that Assignor will furnish to Assignee all data, information, and assistance within Assignor's possession or control necessary or desirable to make and use the Invention, both commercially and/or experimentally; that Assignor will not make, use, sell, offer for sale, or import the Invention.

The undersigned warrant that the rights and property herein conveyed are free and clear of any encumbrance.

EXECUTED under seal on the date set forth below at Otto-Hahn-Strasse 22 - 24, 61381 Friedrichsdorf, Germany.
