*Assignment of Invention*

WHEREAS, we, John Michael Ogorchock and Michael Ryan Ogorchock, of Montgomery, Texas, have invented certain new and useful improvements in: "SYSTEMS AND METHODS FOR STORMWATER DETENTION", for which a United States provisional application for Letters Patent was filed on July 15, 2019, application number 62874216; and

WHEREAS, Summit Precast Concrete LLC (hereinafter referred to as "ASSIGNEE") having a place of business at: 15349 Summit Park Dr. Suite 101, Montgomery, Texas 77356 (USA), desires to acquire the entire right, title and interest in and to said invention and in and to any Letters Patent that may be granted thereof in the United States and its territorial possessions and in any and all foreign countries;

NOW, THEREFORE, for valuable consideration, the receipt whereof is hereby acknowledged, we, by these presents do sell, assign and transfer unto said ASSIGNEE, the full and exclusive right to the said invention in the United States and its territorial possessions and in all foreign countries and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all non-provisional patent applications, divisions, reissues, reexaminations, continuations, continuations-in-part, post-grant reviewed patents, inter parte reviewed patents, supplementally examined patents, substitutions and renewals thereof.

We hereby authorize and request the Patent Office Officials in the United States and its territorial possessions and any and all foreign countries to issue any and all of said Letters Patent, when granted, to said ASSIGNEE as the assignee of our entire right, title and interest in and to the same, for the sole use and behalf of said ASSIGNEE, its successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by us had this Assignment and sale not been made.

Further, we agree that we will communicate to said ASSIGNEE or its representatives any facts known to us respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, continuation-in-part, post-grant review, inter parte review, supplemental, substitute, renewal, reexamination, and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said ASSIGNEE, make all rightful oaths, and, generally do everything possible to aid said ASSIGNEE, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and its territorial possessions and in any and all foreign countries.

The undersigned hereby grant authorized representatives of the above-identified ASSIGNEE the power to insert on this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
