hereinafter referred to as ASSIGNORS, have jointly invented certain new and useful improvements (“invention(s)”) as described and set forth in the below-identified patent application:

☒ Utility application for United States Letters Patent entitled “Telemetry Capture System For Storage Systems,” filed with the U.S. Patent and Trademark Office (USPTO) on June 11, 2020, and assigned Application No. 16/898,859.

WHEREAS, Burlywood, Inc., 1501 South Sunset Street, Suite A, Longmont, CO 80501, hereinafter referred to as ASSIGNEE, is desirous of acquiring ASSIGNORS’ interest in and to said invention(s), and said utility application, said provisional application, and any U.S. and foreign patents which are related to the same.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: Be it known that, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by ASSIGNORS, ASSIGNORS have sold, assigned and transferred and do hereby sell, assign and transfer unto ASSIGNEE, and ASSIGNEE'S successors and assigns, (a) the entire right, title and interest, for the United States of America, in and to said invention(s), said utility application, and said provisional application and all the rights and privileges in any application and under any and all patents that may be granted in the U.S. for said invention(s), including all corresponding provisional, continuation, continuation-in-part, divisional, reissue, and reexamination applications; and (b) the entire right, title and interest in and to said invention(s), said utility application, and said provisional application for all countries foreign to the U.S., including all rights of priority arising from them, and all the rights and privileges under any and all forms of protection, including patents, that may be granted in said countries foreign to the U.S. for them.

ASSIGNORS authorize ASSIGNEE to make application for such protection in its own name and maintain such protection in any and all countries foreign to the U.S., and to invoke and claim for any application for patent or other form of protection for said invention(s), without further authorization from ASSIGNORS, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

ASSIGNORS hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of ASSIGNEE to apply for patent or other form of protection for said invention(s), said utility application, or said provisional application and to claim the aforesaid benefit of the right of priority.

ASSIGNOR agrees to execute all instruments and documents required for the making and prosecution of the identified patent applications (and derivatives) for litigation regarding letters patent derived therefrom, and for the purpose of protecting and perfecting title to the identified patent application (and derivatives).

ASSIGNORS request that any and all patents for said invention(s) be issued to ASSIGNEE in the U.S. and to ASSIGNEE in all countries foreign to the U.S., or to such nominee as ASSIGNEE may designate.

ASSIGNORS authorize ASSIGNEE or its agents to insert, on ASSIGNORS' behalf, the filing date and/or application number above pertaining to the utility application and/or the provisional application, if not known as of the date of execution of this document.

This Assignment may be executed in counterparts.
