ASSIGNMENT-2A

WHEREAS, BASF Corporation, a Delaware Corporation, with a place of business at 100 Park Avenue, Florham Park, New Jersey 07932 United States of America (hereinafter "Assignor"), owns an invention of "Use of an Epoxy-Functional Alkoxysilane Additive in Combination or Alternatively with Alkoxy Silicate to Improve the Scratch and Mar Resistance of Automotive OEM Coatings" for which a United States, European or International application for patent is about to be or has been filed

- (a) xx executed on _____ or
 (b) xx filed on 7 Dec. 2018, and assigned Application No. _____ or PCT International Application No. PCT/EP2018/083989; and

WHEREAS, Assignor desires to assign all right, title and interest in and to the invention to BASF Coatings GmbH, a German Corporation, with a place of business at Glasuritstrasse 1, Muenster, Germany 48165 (hereinafter "Assignee"); and

WHEREAS, Assignee desires to acquire the entire legal and beneficial right, title, and interest in the invention and the application, including the right to claim priority of the application;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, Assignor agrees to and hereby does sell, assign, and transfer unto Assignee and its successors in interest and assignees, the full and exclusive right, title, and interest, in the United States of America and throughout the world, including the right to claim priority under the laws of the United States, Europe and any foreign countries, the Paris Convention, and the Patent Cooperation Treaty to the Application, in and to the invention as described in the Application and the Application itself, and in and to all divisions, continuations, and continuations-in-part, or other applications claiming priority directly or indirectly from the Application and all Letters Patent, utility models, industrial designs, petty patents, design registrations, copyrights, and legal equivalents thereof that may be granted for the invention, and all reissues, reexaminations and extensions thereof, these and the full and exclusive right, title, and interest to be held and enjoyed by Assignee to the full end of the term for which the Letters Patent are granted and any extensions thereof as fully and entirely as the same would have been held by Assignor had the assignment and sale not been made, and the right to sue for, and recover for past infringements of, or liabilities for, any of the rights relating to any of the applications or patents, utility models, industrial designs, petty patents, design registrations, copyrights, and legal equivalents thereof resulting therefrom; and

Assignor agrees that Assignee may apply for and receive any Letters Patent, utility model, and other similar rights anywhere in the world in its own name, and Assignor further authorizes and requests the US Commissioner of Patents and Trademarks or any other proper officer or agency of any country to record this assignment and issue all resulting Letters Patent, Utility Model Registration, Inventor's Certificate, copyrights, and other similar rights to Assignee; and

Assignor warrants and covenants that at the time of execution of this Assignment Assignor has the full right to convey the entire interest herein assigned and that Assignor has not assigned, transferred, licensed or encumbered Assignor's rights therein, and that Assignor will not hereafter assign or attempt to assign any rights therein, or take any other action inconsistent with this Assignment; and

Assignor agrees to execute such further documents and take such acts as reasonably required by Assignee or Assignee's successor to secure and enforce Assignee's rights in the invention, the

Application, and any patent, utility model, or other similar rights which may be granted thereon, including but not limited to further assignments.
