WHEREAS, **Baker Hughes, a GE company, LLC**, a corporation of Delaware, having its principal place of business located at 17021 Aldine Westfield, Houston, Texas 77073, is desirous of acquiring the entire right, title and interest in and to Applications and all inventions set forth therein and to all patent applications directed to such inventions throughout the world which claim the benefit of either of said Applications, and all right, title and interest in, to and under any and all patents granted thereon and other forms of legal protection thereto in the United States and throughout the world;

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and for other good and valuable consideration, the receipt of which is hereby acknowledged, I hereby sell, assign, transfer and set over to **Baker Hughes, a GE company, LLC** all right, title and interest in and to the said inventions and Applications and any and all divisions, continuations, and reissues thereof, and any applications filed outside of the U.S. which claim priority to one or more of Applications as well patents which may be granted therefrom including any reissues, divisionals, continuations, renewals and extensions and the like (collectively, the "Patents"), the same to be held and enjoyed by **Baker Hughes, a GE company, LLC** for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which any of said Patents of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made.

And I hereby authorize and request the Commissioner of Patents and other authorities in foreign countries to issue any and all said Patents to **Baker Hughes, a GE company, LLC**, as assignee of our entire interest, and hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.

And I further hereby covenant and agree that I will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said invention and to one or more of said Applications or Patents as may be granted therefor, to **Baker Hughes, a GE company, LLC**, its successors, assigns, or other legal representatives and that if **Baker Hughes, a GE company, LLC**, its successors, assigns or other legal representatives shall desire to file any divisional, continuation, or continuation-in-part
