CONFIRMATORY PATENT ASSIGNMENT

This CONFIRMATORY PATENT ASSIGNMENT Agreement (this "Assignment") is by and between Acera, Inc. (the "Assignor"), a corporation having its principal place of business at 100 Cummings Center, Suite 439-C, Beverly, MA 01915 and Accra, LLC, a limited liability company (the "Assignee") having its principal office at 100 Cummings Center, Suite 439-C, Beverly, MA 01915.

WHEREAS, Assignor is one of the members of Assignee, and Assignor has assigned to Assignee, in connection with the formation of Assignee and pursuant to the Assignee's operating agreement, all of Assignor's rights, title, and interest in and to all of patent applications set forth in Schedule A and any U.S. and foreign patents to be issued based on said patent application including any and all substitutions, divisionals, continuations, continuations-in-part, provisional applications, reissues, reexaminations, extensions, supplementary protection certificates and the like of any such patents or patent applications, any and all counterparts of any of the foregoing in any country of the world and any and all patents issued from any of the foregoing ("Patent Properties"); and

WHEREAS, Assignor and Assignee desire to confirm such assignment of the Patent Properties pursuant to the terms and conditions set forth herein.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties represent, covenant and agree as follows:

1. Assignment. Assignor does hereby irrevocably assign, transfer, convey, grant and set over to Assignee, and Assignee agrees to accept any such assignment, transfer, conveyance, grant and set over all of Assignor's worldwide and entire right, title and interest in and to the Patent Properties and any and all intellectual property rights inherent in the Patent Properties and appurtenant thereto. Any assignment of rights shall be held and enjoyed by Assignee, its successors and assigns as fully and entirely as the same would have been held and enjoyed by Assignor had such assignment not been made.
2. Acceptance of Assignment. Assignee hereby accepts the rights and properties hereby assigned and transferred to it herein.
3. Right to Sue for Infringement. Assignor also assigns to Assignee all of Assignor's right, title, interest and standing to collect, assert, or enforce any claim, right, title or interest of any kind under any and all of the Patent Properties, including, without limitation, the right (i) to sue for all past, present and future infringements, misappropriations or other violations of any rights relating thereto; (ii) to settle, defend, compromise and retain proceeds from any actions, suits, or proceedings relating to the transferred and assigned rights, title, interest, and benefits; and (iii) to do all other such acts and things in relation thereto as Assignee, in its sole discretion, deems advisable.
4. Cooperation. Assignor agrees to execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, such further instruments and documents and

to perform such further acts as may be reasonably requested by Assignee to effectuate more fully the transactions contemplated by this Assignment.

5. Entire Agreement. This Assignment, together with the Contribution Agreement, contains the entire agreement of the parties with respect to the subject matter of this Assignment. No prior agreement or understanding pertaining to any such matter shall be effective. This Assignment may only be modified in a written instrument executed by the parties.

6. Binding Assignment. This Assignment shall be binding upon and inure to the benefit of each of the parties hereto, their successors and assigns.

7. Governing Law. This Assignment shall be governed by and construed under the laws of the Commonwealth of Massachusetts and the federal laws of the United States of America applicable therein, excluding any conflicts of laws rule or principle that might refer the governance or construction of this Assignment to the law of another jurisdiction.

8. Severability. If any provision of this Assignment shall be deemed invalid or unenforceable by any court of competent jurisdiction, then such portion shall be deemed severed, and the remainder thereof shall be enforceable in accordance with its terms.

9. Counterparts. This Assignment may be executed in counterparts and by facsimile, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
