ASSIGNMENT

WHEREAS, I, Gerard A. Cangelosi, residing at 314 NW 72nd Street, Seattle, WA 98117, am an inventor named in U.S. Provisional Patent Application No. 61/735,180, filed on December 10, 2012, titled Affinity Reagents;

AND, WHEREAS, Seattle Biomedical Research Institute, an independent nonprofit organization having a principal place of business at 307 Westlake Avenue North, Suite 500, Seattle, Washington 98109 (hereinafter referred to as Seattle BioMed), is desirous of acquiring my entire right and title to and interest in our invention disclosed in said application;

NOW, THEREFORE, for sufficient, good, and valuable consideration, including consideration pursuant to Seattle BioMed's Intellectual Property and Technology Transfer Policy, the receipt of which is hereby acknowledged, I do hereby sell, assign, and transfer unto Seattle BioMed *nunc pro tunc* on December 10, 2012 my entire right and title to and interest in said application and said invention, including the right to apply for international patents and patents thereon in foreign countries in my name or in the name of Seattle BioMed, said invention and all applications and patents on said invention to be held and enjoyed by Seattle BioMed as entirely as the same would have been held and enjoyed by me had this sale, assignment, and transfer not been made; and I do hereby further agree and promise to execute all instruments and render all such assistance as Seattle BioMed may request in order to make and prosecute any and all applications on said invention, to enforce any and all patents on said invention, and to confirm in Seattle BioMed legal title to said invention and all applications and patents on said invention, all without charge to Seattle BioMed but at no expense to me.

Executed at Seattle, Washington, this 20 day of November, 2013.
