PATENT RIGHTS ASSIGNMENT

WHEREAS, **Jered S. Joplin**, an individual residing at 1088 Hidden Lakes Trail, Jefferson, GA 30549 (“**Assignor**”) has made and is the lawful owner of an undivided and unencumbered interest in the entire right, title, and interest in and to certain inventions (“**Inventions**”) set forth in the following United States patent applications(s):

1. U.S. 62/726,361, a provisional application filed September 3, 2018, titled “Tunable Muzzle Brake for a Firearm”,
2. U.S. 16/533,730, a non-provisional application filed August 6, 2019, titled “Tunable Muzzle Brake for a Firearm”, and
3. U.S. 16/936,248, a non-provisional application filed July 22, 2020, titled “Tunable Muzzle Brake for a Firearm”,

(collectively referred to hereinafter as the “**Patent Applications**”);

WHEREAS, **American Precision Arms, LLC**, a Georgia limited liability company having an address at 55 Lyle Field Road, Jefferson, GA 30549 (“**Assignee**”), is desirous of acquiring the entire right, title, and interest in and to: the Inventions; the Patent Applications; the right to file applications for patent in the United States or other countries on the Inventions; any application for patent of the United States or other countries claiming priority to the Patent Applications; any provisional or other right to recover damages, including royalties, for prior infringements of these applications; and any patent of the United States or other countries that may be granted therefor or thereon.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by Assignor to have been received in full from Assignee, Assignor hereby does sell, assign, transfer and set over unto Assignee, its successors, legal representatives, and assigns, the Assignor’s entire right, title, and interest in and to the following:

- (a) the Inventions;
- (b) the Patent Applications;
- (c) the right to file applications for patent of the United States or other countries on the Inventions, including all rights under the Hague Convention, the Paris Convention for the Protection of Industrial Property and the Patent Cooperation Treaty;
- (d) any application(s) for patent of the United States or other countries claiming the Inventions;
- (e) any application(s) for patent of the United States or other countries claiming priority to the Patent Applications or any application(s) for patent claiming the Inventions, including any divisional(s), continuation(s), and continuation(s)-in-part;

- (f) any provisional or other right to recover damages, including royalties, for prior infringements of any application for patent identified in the preceding paragraphs (a)-(e); and
- (g) any patent(s) of the United States or other countries that may be granted for or on any application for patent identified in the preceding paragraphs (b)-(e), including any reissue(s), renewal(s), reexamination(s), and extension(s) or said patent(s).

Assignor hereby covenants and agrees to sign all lawful papers and documents, take all lawful oaths, and do all acts necessary or required to be done in connection with any and all of the proceedings for the procurement, maintenance, enforcement, and defense of the Inventions, the Patent Applications, and all related applications and patents described hereinabove, including interference proceedings, post grant review proceedings, *inter partes* review proceedings, and the like, in all countries throughout the world, without charge to the Assignor, its successors, legal representatives, and assigns, but at the cost and expense of the Assignee, its successors, legal representatives, and assigns.

Assignor hereby requests the Commissioner of Patents to issue said patents of the United States to the Assignee and in the Assignee's name for the sole use and behalf of the Assignee, its successors, legal representatives, and assigns.

Assignor has executed and delivered this instrument to said Assignee on the date indicated below.
