## INVENTOR/S ASSIGNMENT FOR PATENT APPLICATIONS

**Title of Invention** ⇒ TRUNCATED VON WILLEBRAND FACTOR POLYPEPTIDES FOR TREATING HEMOPHILIA

**Application** ⇒ This Assignment is directed to the application (hereinafter designated the Application) and the invention described therein (hereinafter designated the Invention). The Application is identified by the following application number and filing date and CSL internal reference and/or by the copy attached hereto:

**Application No.** ⇒ EP 16198501.5

**Filing Date** ⇒ 11 Nov 2016

**CSL Internal Ref.** ⇒ 2016\_L003\_A249

WHEREAS, the below named inventor (hereinafter designated Assignor/s) has invented the Invention described in the Application.

Pursuant to his employment contract with CSL Limited the following named inventor (hereinafter designated Assignor) is obliged to transfer his rights to the Invention and the Application to CSL Limited (hereinafter designated Assignee):

**Name of Assignor/s** ⇒ Dower, Steve

(Schulte, Stefan, Weimer, Thomas, Pestel, Sabine and Metzner, Hubert are assigning their rights to the Invention and the Application to CSL Behring GmbH in a separate assignment document.)

**Name of Assignee** ⇒ WHEREAS, CSL Limited (hereinafter designated Assignee)

**Address of Assignee** ⇒ of 45 Poplar Road, 3052 Parkville, Victoria, Australia

its heirs, successors and assigns has acquired or is desirous of acquiring the entire right, title and interest in and to the Invention and in and to the Application and in and to any and all patent/s that may be granted therefor in any and all countries.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor/s has/have sold, assigned and transferred, and by these presents does/do sell, assign and transfer unto the Assignee, for the benefit of the Assignee and its heirs, successors and assigns, their full and exclusive right to the Invention and the Application, including the right to claim priority from the Application, or from any application from which the Application claims priority, and the right to applications, the right to file applications and the right to claim priority to applications, relating to the Invention or to any modification thereof<sup>1</sup>, in any and all countries inclusive of international applications under the Patent Co-operation Treaty (PCT) and any regional applications including applications under the European Patent Convention (EPC), and the entire right, title and interest in and to any and all patent/s which may be granted therefor or otherwise relate to the Invention or to any modification thereof in any and all countries inclusive of PCT and EPC applications; and to any and all divisions, reissues, continuations, conversions, extensions thereof, supplementary protection certificates or equivalent in relation thereto, for the full term or terms for which the same may be granted.

The Assignor/s agree/s to execute all papers and documents and to perform any act in connection with the Application and any other applications relating in any way to the Invention or to any modification thereof, including any and all divisions, reissues, continuations, conversions, extensions thereof, supplementary protection certificates or equivalent in relation thereto, and with any pre-grant or post-grant patent office proceedings such as oppositions, reexaminations, reissues, supplemental examinations, post-grant reviews, inter-partes reviews, derivations, and interferences, and to enforce the granted patent/s such as in a court proceeding or through licensing, and to execute separate assignment or confirmatory assignment documents in connection with such applications and patents as the Assignee may deem necessary or expedient, and to vest all rights therein hereby conveyed to or confirmed in the Assignee as fully and entirely as the same would have been held by the Assignor/s if this assignment and sale had not been made.

The Assignor/s agree/s to execute all papers and documents and to perform any act in connection with claims or provisions of international conventions for the protection of industrial property or similar agreements including the Paris Convention for the Protection of Industrial Property.

The Assignor/s hereby authorize/s and request/s the Patent and Trademark Office Officials in any country to issue any and all patent/s resulting from the Application and any other applications relating in any way to the Invention or any modification thereof, including any and all divisions, reissues, continuations, conversions, extensions thereof, supplementary protection certificates or equivalent in relation thereto, to the Assignee.

Each Assignor hereby covenants that the Assignor has the full right to convey their entire interest herein assigned, and that the Assignor has not executed, and will not execute, any agreement in conflict herewith, and that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment, and that the Assignor has not done anything which might prejudicially affect the validity or enforceability of any of the rights included in this Assignment.

In witness whereof, EXECUTED by the Assignor on the date opposite the Assignor/s name and effective for each Assignor as of the date of his execution and irrespective of whether execution has been completed by any other Assignor/s or by the Assignee.

---

<sup>1</sup> Attorney note: If further new related priority application/s is/are filed after this Assignment has been executed then consider the additional subject matter in such application/s – If the subject matter generally relates to the Invention or to a modification to the Invention then a further Assignment document will generally not be required. However if the additional subject matter is considered to relate to a further invention not contained in the Application then it is recommended to execute a new Assignment covering the new priority application/s.
