Dear Mr. Gilmore:

Reference is made to that certain Business Finance Agreement, dated as of June 28, 2016, by and between EXTEN Technologies, Inc. (formerly known as Mangstor, Inc.) (the “**Borrower**”) and Western Alliance Bank (the “**Bank**”) (as such Business Finance Agreement heretofore has been amended, supplemented, restated or otherwise modified, the “**Financing Agreement**”). Capitalized terms used but not defined herein shall have the meaning given such terms in the Financing Agreement, unless otherwise specified.

In connection with the Financing Agreement, the Bank and the Borrower entered into that certain Intellectual Property Security Agreement dated as of June 28, 2016 (the “**Security Agreement**”), pursuant to which Borrower granted to Lender a security interest (the “**Security Interest**”) in, among other collateral, the patents and patent rights described in Exhibit A hereto (the “**IP Collateral**”). The Security Agreement was recorded with the United States Patent and Trademark Office at Reel 039059, Frame 0007 on June 30, 2016.

The Bank hereby confirms and acknowledges that: (a) the Security Interest is automatically and irrevocably, discharged, released, terminated and of no further force or effect with no further action on the part of Borrower, and (b) Borrower or its designee are authorized to record with the United States Patent and Trademark Office a copy of this letter in order to evidence the termination of all liens and security interests granted pursuant to the Financing Agreement and the Security Agreement.

Very truly yours,
