FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency and adequacy of which are hereby acknowledged, BENOIT PECQUEUR an individual whose principal residence is Santa Clarita, California (“*Assignor*”), does hereby:

SELL, ASSIGN AND TRANSFER to WAKEBALLAST, LLC, a Nevada limited liability company (“*Assignee*”), the entire right, title and interest for the United States and all foreign countries in and to the patents and patent applications therefore, all as specified in Schedule “A” attached hereto (the “*Transferred Rights*”).

Such sale, assignment and transfer of the Transferred Rights further includes (1) rights in and to any and all inventions disclosed in said United States Letters Patent Application; (2) any and all improvements which are disclosed in the such Transferred Rights; (3) all non-provisional, divisional, continuing, continuation-in-part, substitute, renewal, reexamination, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such improvements or which claim priority to any way to any of the Transferred Rights; (4) any and all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such improvements or the Transferred Rights, specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such Transferred Rights; (5) any and all licensing agreements and rights thereunder and any other agreements entered into by Assignor, if any pertaining to the Transferred Rights including rights relating to monetizing, licensing, or recovering past damages for infringement of any of the Transferred Rights; and (6) all past, existing, and future causes of action and legal rights and claims in any way related to the Transferred Rights, including rights relating to monetizing, licensing, or recovering past damages for infringement of any of the Transferred Rights;

AUTHORIZE AND REQUEST the issuing authority to issue any and all United States and foreign patents granted on such Transferred Rights and improvements to the Assignee;

WARRANT AND COVENANT that Assignor is the sole and exclusive owner of the Transferred Rights, and that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the Assignor, and that the full right to convey the same as herein expressed is possessed by the Assignor and, that to the best of Assignor's knowledge, the Transferred Rights do not infringe the rights of any third parties;

COVENANT, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this assignment, the Assignor will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such Transferred Rights and improvements; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to the Assignee all facts known to the Assignor relating to such Transferred Rights and improvements and the history thereof; and generally do everything possible which the Assignee shall consider desirable for vesting title to such Transferred Rights and improvements in the Assignee, and for securing, maintaining and enforcing proper patent protection for such Transferred Rights and improvements;

AMENDMENT. This Agreement shall not be amended or otherwise modified except by a written agreement dated subsequent to the date of this Agreement and signed on behalf of Assignee and Assignor by their respective duly authorized representatives.
