DECLARATION AND ASSIGNMENT

WHEREAS, the undersigned inventor(s), hereinafter referred to as the "INVENTORS," whose residence are listed below:

*Kenneth M. Chevis (a resident of Metairie, Louisiana)
and Jonathon Daub (a resident of Houston, Texas)*

have invented certain new and useful improvements in

"CONNECTOR END FITTING FOR AN INTEGRATED CONSTRUCTION SYSTEM"

as described and set forth in United States Patent Application Number 16/791,811; filed on February 14, 2020.

AND AS A NAMED INVENTOR, I hereby declare that:

The above identified application was made or authorized to be made by me;

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application;

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 USC 1001 by fine or imprisonment of not more than five (5) years, or both;

I have reviewed and understand the contents of the application, including the claims; and

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

AND WHEREAS, *Apache Industrial Services, Inc.*, hereinafter referred to as "COMPANY", having a place of business at *250 Assay Street, Suite 500, Houston, Texas 77044, United States*, is desirous of acquiring or confirming its acquisition of the entire right, title and interest in and to said invention, inventions or improvements, and in and to said application, and in and to any and all patents, both of the United States and of all foreign countries, that may be obtained therefore.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, BE IT KNOWN, that the undersigned INVENTORS, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, have sold, assigned, transferred and conveyed, and/or by this assignment do hereby sell, assign, transfer and convey, unto said COMPANY, its successors and assigns, the entire right, title and interest throughout the world, in and to the above-described invention, inventions or improvements described or set forth in said application, in any form or embodiment thereof, and in and to said application, and in and to any applications filed in any foreign country based thereon, including the right to file foreign applications under the provisions of any convention or treaty; and in and to any confirmation, provisional, non-provisional, divisional, continuation, continuation-in-part, or substitute application which may be filed on said invention, inventions or improvements in the United States or in any foreign country; and in and to any and all patents, certificates, utility models, reissues, extensions, additions or confirmations thereof which may be granted in the United States or in any foreign country upon said invention, inventions or improvements.

The same to be held and enjoyed by said COMPANY for its own use and enjoyment, and for its legal representatives and assigns, to the full end of the term or terms for which any and all such United States and foreign patents and grants ("Patents/Grants") may be issued on said invention, inventions or improvements, as fully and entirely as the same would have been held by INVENTORS had this assignment and transfer not been made; and, including, but not limited to, the right to sue for past, present and future infringements of said Patents/Grants and to benefit from injunctions against past, present and future infringers, and to recover damages, profits and attorneys fees relative to such past, present and future infringements of Patents/Grants.

AND said INVENTORS do hereby authorize and request the issuing authority to issue any and all of said United States and foreign patents on said application or applications to said, COMPANY, its successors and assigns, as the assignee of the entire right, title and interest in and to the same, for the sole use and benefit of said COMPANY, its successors and assigns.

AND said INVENTORS do hereby covenant and warrant that said INVENTORS have full right to convey the entire right, title and interest herein assigned free and clear of all licenses, encumbrances and liens whatsoever, and that said INVENTORS have not executed or will execute any instruments in conflict herewith.

AND said INVENTORS, for the conditions aforesaid, do hereby covenant and agree to and with said COMPANY, its successors and assigns, that each Inventor, his or her executors, administrators, or other personal representatives, shall and will do all lawful acts and things, make all rightful oaths, and make, execute and deliver any and all other instruments in writing, and any and all further applications, papers, powers, affidavits, assignments, disclaimers, photographs, models, samples or other physical exhibits and other documents, which in the opinion of said COMPANY, its successors and assigns, may be required or necessary in this or in any foreign country more effectually to secure to and vest in said COMPANY, its successors and assigns, the entire right, title and interest in and to said invention, inventions or improvements, application or applications, patents, rights, titles, benefits, privileges, and advantages hereby sold, assigned, confirmed, transferred and conveyed.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

AND WHEREAS, *Apache Industrial Services, Inc.*, hereinafter referred to as "COMPANY", having a place of business at *250 Assay Street, Suite 500, Houston, Texas 77044, United States*, is desirous of acquiring or confirming its acquisition of the entire right, title and interest in and to said invention, inventions or improvements, and in and to said application, and in and to any and all patents, both of the United States and of all foreign countries, that may be obtained therefore.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, BE IT KNOWN, that the undersigned INVENTORS, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, have sold, assigned, transferred and conveyed, and/or by this assignment do hereby sell, assign, transfer and convey, unto said COMPANY, its successors and assigns, the entire right, title and interest throughout the world, in and to the above-described invention, inventions or improvements described or set forth in said application, in any form or embodiment thereof, and in and to said application, and in and to any applications filed in any foreign country based thereon, including the right to file foreign applications under the provisions of any convention or treaty; and in and to any confirmation, provisional, non-provisional, divisional, continuation, continuation-in-part, or substitute application which may be filed on said invention, inventions or improvements in the United States or in any foreign country; and in and to any and all patents, certificates, utility models, reissues, extensions, additions or confirmations thereof which may be granted in the United States or in any foreign country upon said invention, inventions or improvements.

The same to be held and enjoyed by said COMPANY for its own use and enjoyment, and for its legal representatives and assigns, to the full end of the term or terms for which any and all such United States and foreign patents and grants ("Patents/Grants") may be issued on said invention, inventions or improvements, as fully and entirely as the same would have been held by INVENTORS had this assignment and transfer not been made; and, including, but not limited to, the right to sue for past, present and future infringements of said Patents/Grants and to benefit from injunctions against past, present and future infringers, and to recover damages, profits and attorneys fees relative to such past, present and future infringements of Patents/Grants.

AND said INVENTORS do hereby authorize and request the issuing authority to issue any and all of said United States and foreign patents on said application or applications to said, COMPANY, its successors and assigns, as the assignee of the entire right, title and interest in and to the same, for the sole use and benefit of said COMPANY, its successors and assigns.

AND said INVENTORS do hereby covenant and warrant that said INVENTORS have full right to convey the entire right, title and interest herein assigned free and clear of all licenses, encumbrances and liens whatsoever, and that said INVENTORS have not executed or will execute any instruments in conflict herewith.

AND said INVENTORS, for the conditions aforesaid, do hereby covenant and agree to and with said COMPANY, its successors and assigns, that each Inventor, his or her executors, administrators, or other personal representatives, shall and will do all lawful acts and things, make all rightful oaths, and make, execute and deliver any and all other instruments in writing, and any and all further applications, papers, powers, affidavits, assignments, disclaimers, photographs, models, samples or other physical exhibits and other documents, which in the opinion of said COMPANY, its successors and assigns, may be required or necessary in this or in any foreign country more effectually to secure to and vest in said COMPANY, its successors and assigns, the entire right, title and interest in and to said invention, inventions or improvements, application or applications, patents, rights, titles, benefits, privileges, and advantages hereby sold, assigned, confirmed, transferred and conveyed.
