ASSIGNMENT AGREEMENT

THIS AGREEMENT is made this 11th day of May, 2017 (the "**Effective Date**"), by and between Sanovas Inc. (the "**Assignor**"), a Delaware corporation having its primary place of business at 2597 Kerner Boulevard, San Rafael, California, 94901, and Sanovas Intellectual Property, LLC (the "**Assignee**"), a Nevada limited liability company having its primary place of business at 9120 Double Diamond Parkway, Reno, Nevada, 89521 (collectively the "**Parties**").

WHEREAS, Assignor is a life science asset holding company that owns all right, title, and interest in and to the intellectual property pertaining to certain medical technologies and products (collectively the "**Intellectual Property**," defined hereafter);

WHEREAS, Assignee is a wholly-owned subsidiary of Assignor; and

WHEREAS, Assignor desires to assign all its right, title, and interest in and to the Intellectual Property to Assignee in order to better manage its assets, and Assignee also wishes to acquire such Intellectual Property;

NOW THEREFORE, in consideration of the mutual promises, covenants, warranties, and other good and valuable consideration set forth herein, and in accordance with applicable law, the Parties hereby agree as follows:

1. **Definitions.** As used in this Agreement:

- (a) "**Copyrights**" means all copyrights, copyrightable works and original works of authorship (whether or not registered) and registrations and applications for registration or renewals thereof in the United States and anywhere else throughout the world, including all renewals, extensions, reversions or restorations associated with such copyrights, now or hereafter provided by law, regardless of the medium of fixation or means of expression;
- (b) "**Know-How**" means all know-how, ideas, concepts, creations, layouts, designs, drawings, patterns, models, compositions, architectures, protocols, formulas, algorithms, processes, programs, methods, computer software (including object code and source code and related documentation), and research and development, and other knowledge, information, skill, and material;
- (c) "**Intellectual Property**" shall mean all of the following that are owned or controlled by Assignor (i) inventions, innovations and discoveries (whether patentable or unpatentable and whether or not reduced to practice), all improvements thereto; (ii) Know-How; (iii) Patents; (iv) Trademarks; (v) Copyrights; (vi) Internet domain names and registrations and applications for registration or renewals thereof, and social media identifications and tags; (vii) all rights in databases and data collections; and (viii) Trade Secrets;
- (d) "**Patents**" means all patents, utility models, and industrial design registrations of the United States and anywhere else throughout the world, any applications for any of the foregoing, together with any continuations, continuations-in-part or divisional applications thereof, all patents, utility models, and industrial design registrations

issuing thereon, and all patents, utility models, and industrial design registrations and applications claiming priority thereto or claiming the benefit of the filing date thereof (including reissues, renewals and reexaminations of any of the foregoing);

- (e) "**Trademarks**" means all trademarks, service marks, trade dress, logos, slogans, trade names and corporate names, together with the goodwill symbolize by any of the foregoing (whether or not registered), in the United States and anywhere else throughout the world, including all registrations and applications for registration or renewals of the foregoing;
- (f) "**Trade Secrets**" shall include all confidential business information such as confidential pricing and cost information, confidential business and marketing plans and confidential customer and supplier lists and confidential know-how, techniques and protocols

2. **Assignment.** Assignor hereby assigns, conveys, and transfers to Assignee, and its successors and assigns, and Assignee hereby receives and accepts from Assignor, effective as of the Effective Date:

- (a) all right, title, and interest in the United States and throughout the world in and to the Intellectual Property and any part, component, aspect, element, right, as well as associated goodwill thereof, including but not limited to those listed and described in Schedule A of this Agreement, and all tangible embodiments of any of the foregoing, in any form and in any media, subject to all licenses and covenants not to assert with respect to any of the foregoing entered into prior to the Effective Date;
- (b) the exclusive right to exercise, exploit, assign, transfer, commercialize, develop, improve, and grant rights and licenses under and with respect to any of the Intellectual Property, and to sue or otherwise enforce, and continue any suit or other enforcement, for any infringement occurring before or after the Effective Date as well as all statutory, contractual and other claims, demands, and causes of action for royalties, fees, or other income from, or infringement, misappropriation or violation of, any of the foregoing, including the right to sue and collect damages for past infringement of the Intellectual Property and all of the proceeds from the foregoing that are accrued and unpaid as of, and/or accruing after, the Effective Date;
- (c) the exclusive right to file, continue, discontinue, prosecute, reissue, abandon, maintain, cancel, let expire, apply for and obtain statutory rights and registrations with respect to any Intellectual Property; and
- (d) Assignee shall also receive all royalties now or hereafter due or payable under any pre-existing licensing agreements between Assignor and third parties.

3. **Mandatory Laws.** If and to the extent that, as a matter of law in any jurisdiction, ownership, title, or any rights or interest in or to any of the Intellectual Property cannot be assigned as provided in Section 2, (i) Assignor agrees to assign and transfer, and hereby assigns and transfers to Assignee all rights (including, without limitation, all economic and commercialization rights) that can be assigned pursuant to Section 2 to the fullest extent permissible, and (ii) Assignor agrees to grant, and hereby grants, Assignee an unlimited,

exclusive, irrevocable, assignable, transferable, sublicenseable, worldwide, perpetual, royalty-free license to use, exploit and commercialize in any manner now known or in the future discovered and for whatever purpose, any rights to the Intellectual Property that cannot be assigned as contemplated by Section 2.

4. **Payment.** In consideration of the assignment of the Intellectual Property under this Agreement, and of the promises and covenants contained herein, and in addition to other good and valuable consideration, the sufficiency of which is acknowledged herein, Assignee shall pay Assignor USD\$1 as consideration for the assignment.
5. **No Representation or Warranties.** ASSIGNEE ACKNOWLEDGES AND AGREES THAT: (A) ASSIGNOR DOES NOT MAKE ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, AS TO THE CONDITION, QUALITY, MERCHANTABILITY, VALIDITY, ENFORCEABILITY OR FITNESS OF ANY ASSIGNED INTELLECTUAL PROPERTY; (B) ALL SUCH ASSIGNED INTELLECTUAL PROPERTY WILL BE TRANSFERRED ON AN "AS IS," "WHERE IS" BASIS; AND (C) ASSIGNEE WILL BEAR THE ECONOMIC AND LEGAL RISKS THAT ANY CONVEYANCE WILL PROVE TO BE INSUFFICIENT TO VEST IN IT OR THEM GOOD AND MARKETABLE TITLE, FREE AND CLEAR OF ANY SECURITY INTEREST, PLEDGE, LIEN, CHARGE, CLAIM OR OTHER ENCUMBRANCE OF ANY NATURE WHATSOEVER.
6. **Intellectual Property Status.** Assignee hereby acknowledges and agrees that any finding or ruling subsequent to the Effective Date that any of the Intellectual Property rights are invalid or unenforceable shall not give rise to a cause of action against Assignor under this Agreement, unless Assignor has committed fraud in executing this Agreement.
7. **Further Assurance.** Assignor hereby agrees to execute any further agreements and to take any further actions necessary to aid Assignee in perfecting its interest in the Intellectual Property and in enforcing any and all protections or privileges deriving from the Intellectual Property. When requested, Assignor will: (a) execute, acknowledge, and deliver any requisite affidavits and documents of assignments and conveyance; (b) help Assignee as needed to aid in the enforcement and defense of the Intellectual Property rights; (c) provide assistance and testimony, in connection with any proceeding pertaining in any way to any of the Intellectual Property, provided that Assignee shall reimburse Assignor for Assignor's out of pocket expenses; and (d) perform any other acts deemed necessary by Assignee to carry out the purposes of this Agreement. Additionally, Assignor agrees to file any applications for the Intellectual Property rights that must be filed in Assignor's own name in view of priority applications or other documents having previously been filed in the name of or owned by Assignor, acknowledges that such applications are nevertheless owned by Assignee, and agrees to execute, acknowledge, and deliver any requisite affidavits and documents of assignments and conveyance to Assignee therefor.
8. **Governing Law.** This Agreement shall be construed in accordance with, and governed in all respects by, the laws of the State of California, without regard to conflicts of law principles, and venue shall be proper in the federal and state courts having jurisdiction in the State of California.

9. **Counterparts.** This Agreement may be executed in several counterparts, each of which shall constitute an original and all of which, when taken together, shall constitute one agreement.
10. **Severability.** If any part or parts of this Agreement shall be held unenforceable for any reason, the remainder of this Agreement shall continue in full force and effect. If any provision of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, and if limiting such provision would make the provision valid, then such provision shall be deemed to be construed as so limited.
11. **Notice.** Any notice required or otherwise given pursuant to this Agreement shall be in writing and mailed certified return receipt requested, postage prepaid, or delivered by overnight delivery service, addressed as follows:
