For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, ASSIGNOR has sold, assigned, transferred, and conveyed, and by this Assignment hereby irrevocably sells, assigns, transfers, and conveys to ASSIGNEE and its successors, assigns, and legal representatives all right, title, and interest throughout the world in and to any and all inventions and improvements in and relating to the subject matter of the following patent document and patent documents shown in Schedule A (if any) (the "Patent Application"):

The right, title, and interest transferred to ASSIGNEE includes, but is not limited to, the following:

(a) the full and exclusive right to the inventions and improvements described in the Patent Application, in the United States and all foreign countries, together with any related applications, rights, and rights to claim priority, including any PCT, provisional, nonprovisional, continuation, continuation-in-part, divisional, reissue, reexamination, patent, design patent, utility model, and design registration, and other patent application or like document or right, and any right of priority under the Paris Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and any other relevant international agreements, and ASSIGNOR hereby authorizes and requests that any patent issuing from the Patent Application and any reissue, extension, application, patent, or the like that claims priority to the Patent Application issue to ASSIGNEE, for the sole use and benefit of ASSIGNEE, its successors, assigns, and legal representatives;
