RESTATED INTELLECTUAL PROPERTY ASSIGNMENT

THIS RESTATED INTELLECTUAL PROPERTY ASSIGNMENT (this "**Assignment**") is made, entered into and effective as of July 25, 2019 ("the "**Effective Date**"), by EIE Materials, Inc., d/b/a Lumenari, Inc.. a Delaware corporation ("**Assignee**") and Current Lighting Solutions, LLC, a Delaware limited liability (collectively the "**Assignor**"). All capitalized terms used herein and not otherwise defined herein shall have the meaning ascribed to such terms in that certain Asset Purchase Agreement, of even date herewith (the "**Purchase Agreement**"), by and between the Assignor and the Assignee.

RECITALS:

WHEREAS, pursuant to the Purchase Agreement, the Assignor has agreed to assign to the Assignee all of its right, title and interest in, and to execute this Assignment to enable the Assignee to record the assignment of, all of the Assignor's right, title and interest in and to the intellectual property set forth in Schedule A, together with the associated registration and renewals, all goodwill associated therewith, and any and all corresponding rights that, now or hereafter, may be secured throughout the world with respect thereto (the "**Assigned IP**").

NOW, THEREFORE, in consideration of the foregoing and the respective representations, warranties, covenants, agreements and conditions set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, each party hereto hereby agrees as follows:

1. Assignment. The Assignor hereby irrevocably conveys, transfers and assigns to the Assignee as of the Effective Date, and the Assignee hereby accepts, any and all right, title and interest of the Assignor in and to the Assigned IP on the terms and conditions set forth in the Purchase Agreement. The Assignee is to hold all right, title and interest in and to the Assigned IP as fully and exclusively as they would have been held and enjoyed by the Assignor had the assignment in this Section 1 not been made.

2. Authorization. The Assignor authorizes and requests the Assignee to request any registering body (the "**Registrar**") to record the Assignee as the assignee or transferee of the Assigned IP and shall, promptly upon presentation to the Assignor by the Assignee, execute, or procure the execution of, such transfer documents and provide such information as required by the Registrar, and the Assignor hereby covenants that the Assignor has full right to convey its entire interest herein assigned, and that the Assignor has not executed, and will not execute, any agreements in conflict herewith.

3. Terms of the Purchase Agreement. The terms of the Purchase Agreement, including, but not limited to, the representations, warranties, covenants, agreements, and indemnities relating to the Assigned IP are incorporated herein by this reference. The parties hereto acknowledge and agree that the representations, warranties, covenants, agreements, and indemnities contained in the Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern.

4. Further Assurances. Each party hereto shall, from time to time and at all times hereafter, upon the request of the other party hereto, do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered all such further acts, deeds, assignments, transfers, conveyances, powers of attorney and assurances as may be required to carry out the intent of this Assignment.

5. Governing Law. The parties specifically agree that this Assignment shall in all respects be interpreted, read construed and governed by the internal Laws of the State of Delaware, exclusive of its conflicts of law rules.

6. Counterparts. This Assignment may be executed simultaneously in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The parties to this Assignment may deliver their executed counterparts by facsimile or other electronic means.
