PATENT SECURITY AGREEMENT

This Patent Security Agreement ("**Patent Security Agreement**"), dated as of August 25, 2020, is made by and between Performance Designed Products LLC, a California limited liability company ("**Grantor**"), and Fifth Third Bank, National Association (the "**Secured Party**").

Grantor and Secured Party have entered into a Credit and Security Agreement dated as of even date herewith (as amended, restated, supplemented and otherwise modified from time to time, the "**Credit Agreement**").

Under the terms of the Credit Agreement, Grantor has granted to Secured Party a security interest in, among other property, certain intellectual property of Grantor, and has agreed to execute and deliver this Patent Security Agreement, for recording with national, federal and state government authorities, including, but not limited to, the United States Patent and Trademark Office.

Grantor and Secured Party therefore agree as follows:

1. **Grant of Security.** Grantor hereby grants to Secured Party a security interest in and to all of the right, title and interest of Grantor in, to and under the following, wherever located, and whether now existing or hereafter arising or acquired from time to time (the "**Patent Collateral**"):

(a) the patents, patent applications, and patent licenses set forth in **Schedule 1** hereto and all reissues, divisions, continuations, continuations-in-part, renewals, extensions and reexaminations thereof and amendments thereto (the "**Patents**");

(b) all rights of any kind whatsoever of Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether occurring before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. **Recordation.** Grantor authorizes the Commissioner for Patents and any other government officials to record and register this Patent Security Agreement upon Secured Party's request.

3. **Loan Documents.** This Patent Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of Secured Party with respect to the Patent

Collateral are as provided by the Credit Agreement and related documents, and nothing in this Patent Security Agreement shall be deemed to limit such rights and remedies.

4. **Execution in Counterparts.** This Patent Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Patent Security Agreement by facsimile or in electronic (i.e., "pdf" or "tif" format) shall be effective as delivery of a manually executed counterpart of this Patent Security Agreement.

5. **Successors and Assigns.** This Patent Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. **Governing Law.** This Patent Security Agreement and any claim, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Patent Security Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the State of New York.

[signature page to follow]

(Signature Page to Patent Security Agreement)

Grantor and Secured Party have executed this Patent Security Agreement as of the date set forth in the introductory paragraph.

SECURED PARTY

**FIFTH THIRD BANK, NATIONAL
ASSOCIATION**

By: _____

Jeffrey Seiden
Senior Vice President
