PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (the "Assignment") is made and shall be effective as of the Effective Date (defined below), by and among, Brian H. Hamm, residing in Wisconsin Rapids, WI, and Chris A. Hamm, residing in Wisconsin Rapids, WI, (collectively, the "Assignors"), and Hamm Designs, LLC, a Wisconsin limited liability company, having a principal place of business at 7222 Townline Road, Wisconsin Rapids, WI 54494, (the "Assignee").

WHEREAS, Assignors desire to assign to Assignee all of Assignors' rights in and to the patents listed in Schedule A and all continuations, continuations-in-part, divisions, or renewals thereof, all patents that may be granted therefrom, all reissues, re-examinations, or extensions of such patents, and in and to any applications that have been or shall be filed in any other countries, and all patents or utility models of other countries that may be granted therefrom or correspond thereto, along with the right to recover for damages and profits for past and future infringements thereof (collectively, the "Patents"); and

WHEREAS, Assignee desires to acquire the entire interest in, to, and under said patents and in, to, and under any Letters Patent or similar legal protection relating thereto to be obtained therefor in the United States and in any and all foreign countries.

NOW, THEREFORE, for one dollar (\$1.00) and other good and valuable consideration, the sufficiency of which is hereby acknowledged, Assignors do hereby sell, assign, and transfer unto Assignee all of Assignors' rights, title, and interest in and to the Patents and all continuations, continuations-in-part, divisions or renewals thereof, all patents that may be granted therefrom, all reissues or extensions of such patents, and in and to any applications corresponding thereto that have been or shall be filed in any other countries, and all patents or utility models of other countries that may be granted therefrom, together with any and all claims or causes of action for infringement thereof that may have accrued prior to and/or after the effective date of this Assignment, including the right to bring suit for and/or initiate any proceeding to collect any and all damages arising from said claims or causes of action. Assignors further agree to execute such other and further documents as reasonably necessary to carry out the intent of this Assignment.

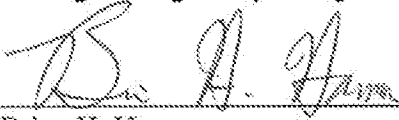

Assignors hereby covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment and sale.

Where appropriate, the parties authorize and request the Commissioner of Patents of the United States Patent and Trademark Office, whose duty it is to issue patents, to record Assignee as the assignee and owner of the Patents.

The parties hereby further undertake that they will execute such additional documents and take such further actions as may be reasonably required or as Assignee may request in order to confirm and further effectuate the sale and assignment of the Patents by Assignors to Assignee.

This Assignment (i) may be executed in one or more counterparts and delivered by facsimile, portable document format or other electronic means, each of which when so executed and delivered shall be deemed to be an original and all of which together shall be deemed to be one and the same agreement; (ii) shall be binding upon and inure to the benefit of the parties hereto,

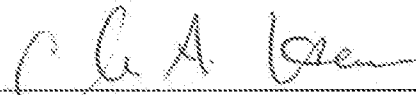

and each of their successors and assigns; (iii) shall be governed in all respects by the internal laws of the State of Wisconsin, without regard to its conflicts of law principles which would require application of the laws of another jurisdiction; and (iv) may not be amended or modified unless in writing and signed by Assignee and Assignors.
