PATENT ASSIGNMENT AGREEMENT

This PATENT ASSIGNMENT AGREEMENT (this “Agreement”) is entered into as of September 3, 2020 (the “Effective Date”) by and between Seattle Avionics, Inc., a Washington corporation (“Assignor”) and APG Avionics, LLC, a Delaware limited liability company (“Assignee”, and together with Assignor, the “Parties”).

WHEREAS, pursuant to that certain Asset Purchase Agreement (“Purchase Agreement”), dated as of the date hereof, by and between Assignor, Assignee, and the other parties thereto, Assignor has agreed to assign (or cause to be assigned) to Purchaser (or its designee) all of its right, title and interest in and to its intellectual property rights, including the patents and patent applications set forth on Schedule A attached hereto (collectively, the “Transferred Patents”); and

WHEREAS, Assignor is the current registered owner of the Transferred Patents, and in furtherance of the Purchase Agreement, Assignor desires to sell, assign, transfer and convey to Assignee, and Assignee desires to acquire and assume, the Transferred Patents.

NOW, THEREFORE, in consideration of the mutual promises hereinafter set forth and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Definitions. Capitalized terms not otherwise defined herein shall have the respective meanings ascribed to them in the Purchase Agreement.

2. Assignment. Assignor hereby irrevocably sells, assigns, transfers and conveys and agrees to sell, assign, transfer, and convey to Assignee all of Assignor’s right, title, and interest in and to the Transferred Patents, including any common law, statutory and other rights associated therewith, together with the right to seek and obtain damages for the past, present or future infringement, misappropriation or other violation thereof. Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks, and the corresponding entity or agency in any other jurisdiction, to record and register Assignee as the assignee and owner of the Transferred Patents.

3. Further Assurances. From time to time after the Effective Date, and for no further consideration, Assignor shall execute, acknowledge and deliver such assignments, transfers, consents, assumptions and other documents and instruments and take such other actions as may be requested by Assignee to effect the assignment of all rights, title and interest in and to the Transferred Patents to Assignee, and to confirm and evidence such assignment and enable Assignee to secure, register, maintain, enforce and otherwise fully protect its rights, title and interest in and to the Transferred Patents. Assignor, upon Assignee’s request, shall take all further actions, and provide Assignee all such cooperation and assistance (including, but not limited to, the execution and delivery of any and all affidavits, declarations, oaths, powers of attorney and other documentation), to more fully effectuate the purposes of this Agreement. Should Assignee opt to take action against any actual or suspected infringers or other violators of any of the Transferred Patents, upon Assignee’s request, Assignor shall, at Assignee’s expense, provide Assignee all cooperation in connection therewith including, but not limited to, by offering testimony.

4. Counterparts; Successors. This Agreement may be executed in one or more counterparts, each of which shall be considered an original, with the same effect as if the signatures thereto and hereto were upon the same instrument, and shall become effective when one or more counterparts have been signed by each Party and delivered (by facsimile, electronic mail, or otherwise) to the other Party. Signatures to this Agreement transmitted by facsimile, by electronic mail in “portable document format”

("pdf"), or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing the original signatures. This Agreement and all of the provisions hereof shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assigns, except that neither this Agreement nor any of the rights, interests or obligations hereunder may be assigned or transferred by either Party (whether by operation of law or otherwise) without the prior written consent of the other Party.
