NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby sells, assigns, transfers, and conveys to Assignee, its successors and assigns, Assignor’s entire right, title, and interest in and to Patent Assets (as well as such rights in any divisionals, continuations in whole or part, provisionals, non-provisionals, substitutes, renewals, reissues, oppositions, continued examinations, reexaminations, or extensions thereof), including the exclusive right for the Assignee to (a) sue for any infringement that may have occurred before the date of this Assignment; (b) file for any provisional, non-provisional, divisional, continuations in whole or part, renewal, substitute, reissue, opposition, continued examination, reexamination, reissue, foreign, or other application based on the disclosure set forth in any Patent Assets directly in the name of Assignee; and (c) claim any priority rights to which such applications are entitled under international conventions, treaties, or

For this Assignment, the expressions “right of priority” and “period of priority” have the meanings given to them in the Paris Convention for the Protection of Industrial Property, as amended from time to time, and shall be understood as including any equivalent expressions in any national or supra-national legislation that gives effect to that Convention.

WHEREAS, Assignor is the owner of:

- United States Trademark Registration No. 5,894,325 for DRAGON CHEWER (“Mark”), as recorded in the United States Patent and Trademark Office; and

goodwill associated therewith, the right to recover for damages and profits and other remedies for past infringements of the Mark, and the right to prosecute this and any other applications or registrations of the Mark.

Assignor further agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable to vest Assignee's right, title, and interest in and to the Mark, and to enable such right, title, and interest to be recorded in the United States Patent and Trademark Office and any other appropriate governmental authority or agency of the United States and internationally.
