ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, I/we, the undersigned Assignor(s), hereby assign to McAfee, LLC, a company existing under the laws of Delaware and having a principal place of business at 2821 Mission College Boulevard, Santa Clara, California, 95054, United States of America, together with its successors and assigns ("Assignee"), the entire right, title, and interest (including the right to sue for past damages), in the United States and any other country or region in the world, in and to the assigned property ("Assigned Property") which includes each of the following:

any and all inventions and improvements ("Inventions and Improvements") that are disclosed in this application for patent entitled **"Multi-Lateral Process Trees for Malware Remediation"**, which was or will be filed on July 5, 2019 as patent application number 16/503,859 ("Patent Application");

the Patent Application;

any and all patent applications from which the Patent Application directly or indirectly claims priority (including but not limited to any of the following "Application Types": provisional patent application(s), design patent application(s), utility patent application(s), utility model patent application(s), divisional patent application(s), continuation patent application(s), continuation-in-part patent application(s), national phase patent application(s), United States patent application(s), reexamination patent application(s), reissue patent application(s), regional patent application(s), international (e.g., Patent Cooperation Treaty) patent application(s) and/or patent application(s) filed in countries other than the United States);

any and all patent applications that directly or indirectly claim priority from the Patent Application (including but not limited to any Application Type);

any and all other patent applications (including but not limited to any Application Type) that disclose any of the Inventions and Improvements that have been or shall be filed in the United States, in any other country and/or in any international filing office (e.g., a Receiving Office under the Patent Cooperation Treaty);

all original patents, reissue patents and/or extensions of any patents that have been or shall be issued in the United States and/or in any other country from any patent application(s) recited above; and

all rights of priority resulting from the filing of the Patent Application and/or any other patent application(s) recited above.

The right, title, and interest conveyed in this Assignment is to be held and enjoyed by Assignee as fully and exclusively as it would have been held and enjoyed by Assignor(s) had this Assignment not been made.

This Assignment is governed by the laws of the State of Delaware, United States of America without regard to its choice of law provisions.

The undersigned Assignor(s) further agree that Assignee may apply for and receive a patent or patents for the Inventions and Improvements in its own name; and that, when requested, the undersigned Assignor(s) agree to carry out in good faith the intent and purpose of this Assignment without further consideration or compensation.

The undersigned Assignor(s) further agree to cooperate with Assignee in the protection of the Assigned Property, including to execute all patent applications recited above; execute all rightful oaths, assignments, powers of attorney, and other papers in connection with the patent applications recited above; communicate to Assignee and its legal representatives all facts known to the undersigned relating to the Assigned Property, and the history thereof. The undersigned Assignor(s) agree to attend depositions, prepare and execute declarations and affidavits and testify as a witness. The undersigned Assignor(s) agree to generally assist Assignee and its legal representatives in securing and maintaining patent protection for the Assigned Property and for vesting title to the Assigned Property in Assignee.

The undersigned Assignor(s) hereby authorize and request the Commissioner of Patents and Trademarks of the United States Patent and Trademark Office to issue any patent(s) from the above-recited patent applications of the United States to Assignee.

The undersigned Assignor(s) hereby authorize and request the appropriate governmental official(s) of any patent office(s) outside the United States to issue any patent(s) from the above-recited patent applications in those patent office(s) to Assignee.

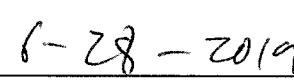

The undersigned Assignor(s) hereby authorize and request the attorneys of record in the Patent Application to insert in this Assignment the filing date and/or application number associated with the Patent Application when officially known.

Assignor(s)

I hereby represent and warrant that I have full power to enter into this Assignment and that the rights, titles and interests assigned are not encumbered by any grant, license, or right heretofore given.

ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, I/we, the undersigned Assignor(s), hereby assign to McAfee, LLC, a company existing under the laws of Delaware and having a principal place of business at 2821 Mission College Boulevard, Santa Clara, California, 95054, United States of America, together with its successors and assigns ("Assignee"), the entire right, title, and interest (including the right to sue for past damages), in the United States and any other country or region in the world, in and to the assigned property ("Assigned Property") which includes each of the following:

any and all inventions and improvements ("Inventions and Improvements") that are disclosed in this application for patent entitled **"Multi-Lateral Process Trees for Malware Remediation"**, which was or will be filed on July 5, 2019 as patent application number 16/503,859 ("Patent Application");

the Patent Application;

any and all patent applications from which the Patent Application directly or indirectly claims priority (including but not limited to any of the following "Application Types": provisional patent application(s), design patent application(s), utility patent application(s), utility model patent application(s), divisional patent application(s), continuation patent application(s), continuation-in-part patent application(s), national phase patent application(s), United States patent application(s), reexamination patent application(s), reissue patent application(s), regional patent application(s), international (e.g., Patent Cooperation Treaty) patent application(s) and/or patent application(s) filed in countries other than the United States);

any and all patent applications that directly or indirectly claim priority from the Patent Application (including but not limited to any Application Type);

any and all other patent applications (including but not limited to any Application Type) that disclose any of the Inventions and Improvements that have been or shall be filed in the United States, in any other country and/or in any international filing office (e.g., a Receiving Office under the Patent Cooperation Treaty);

all original patents, reissue patents and/or extensions of any patents that have been or shall be issued in the United States and/or in any other country from any patent application(s) recited above; and

all rights of priority resulting from the filing of the Patent Application and/or any other patent application(s) recited above.

The right, title, and interest conveyed in this Assignment is to be held and enjoyed by Assignee as fully and exclusively as it would have been held and enjoyed by Assignor(s) had this Assignment not been made.

This Assignment is governed by the laws of the State of Delaware, United States of America without regard to its choice of law provisions.

The undersigned Assignor(s) further agree that Assignee may apply for and receive a patent or patents for the Inventions and Improvements in its own name; and that, when requested, the undersigned Assignor(s) agree to carry out in good faith the intent and purpose of this Assignment without further consideration or compensation.

The undersigned Assignor(s) further agree to cooperate with Assignee in the protection of the Assigned Property, including to execute all patent applications recited above; execute all rightful oaths, assignments, powers of attorney, and other papers in connection with the patent applications recited above; communicate to Assignee and its legal representatives all facts known to the undersigned relating to the Assigned Property, and the history thereof. The undersigned Assignor(s) agree to attend depositions, prepare and execute declarations and affidavits and testify as a witness. The undersigned Assignor(s) agree to generally assist Assignee and its legal representatives in securing and maintaining patent protection for the Assigned Property and for vesting title to the Assigned Property in Assignee.

The undersigned Assignor(s) hereby authorize and request the Commissioner of Patents and Trademarks of the United States Patent and Trademark Office to issue any patent(s) from the above-recited patent applications of the United States to Assignee.

The undersigned Assignor(s) hereby authorize and request the appropriate governmental official(s) of any patent office(s) outside the United States to issue any patent(s) from the above-recited patent applications in those patent office(s) to Assignee.

The undersigned Assignor(s) hereby authorize and request the attorneys of record in the Patent Application to insert in this Assignment the filing date and/or application number associated with the Patent Application when officially known.

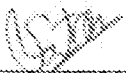

Assignor(s)

I hereby represent and warrant that I have full power to enter into this Assignment and that the rights, titles and interests assigned are not encumbered by any grant, license, or right heretofore given.
