 - b. any and all rights of action for infringement, including past infringement, in the United States, Canada, and throughout the world (hereinafter, collectively, "**the Territory**");
2. Assignors further covenant with Assignee, its successors, assigns and legal representatives and represent and warrant that no assignment, grant, mortgage, or pledge affecting the rights and properties herein conveyed has been made by Assignors to any person or entity other than Assignee, that the full right to assign, transfer, and convey the same as herein expressed is possessed by Assignors, and that Assignors will not hereafter assign or attempt to assign any rights therein, or take any other action inconsistent with this Assignment.
3. Assignors pledge and agree to do all acts and execute all other documents reasonably requested by Assignee in order to insure, confirm, or establish that Assignee owns all of Assignors' right, title, and interest in and to the subject matter (including all inventions and improvements) disclosed in the Patents and that any and all other interests and rights appurtenant thereto owned by Assignors including, but not limited to, all such rights and interests referred to herein are owned and possessed by Assignee.
4. All costs and charges required for and/or related to the filing of other applications and/or the registration of the present Assignment in the Territory, including, but not limited to, official and governmental fees, shall be borne by Assignee.
