ASSIGNMENT BY INVENTOR

This Assignment is by **Symone Lewis** (the "Assignor").

WHEREAS, Assignor invented one or more certain inventions (the "Invention(s)") described in one or more application(s) for Letters Patent as set forth in Attachment A (the "Application(s)").

WHEREAS, **Shoulder Bare Ltd.**, a Corporation of Illinois having its principal place of business at **2644 Canyon Ct.; Aurora, IL 60503** (the "Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application(s), and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

NOW THEREFORE, for valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application(s), and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application(s); any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; the right to claim priority rights deriving from the Application (collectively, the "Rights"); and the full right to recover all damages including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; and to have hold for the sole and exclusive use and benefit of Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

Assignor warrants that Assignor own the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings exclusively in Assignee's own name regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee, and the commissioner of patents for any foreign jurisdiction to issue any patent that may be issued on the Application(s) filed outside the United States to Assignee.

Assignor covenants and agrees, for both Assignor's and Assignor's legal representatives, that Assignor will assist Assignee in the prosecution of the Application(s) identified herein; in the making and prosecution of any other patent applications that Assignee may elect to make covering the Invention(s) identified above; in vesting in Assignee exclusive title in all such other patent applications and patents; and that Assignor will execute and deliver to Assignee all additional papers which may be requested by Assignee to carry out the terms of this Assignment.

IN TESTIMONY WHEREOF, Assignor has executed this agreement:

Date: Sep 17, 2020, 2020 Signature: *Symone Lewis*
