UNITED STATES PATENT APPLICATION ASSIGNMENT AGREEMENT

Fabien ANDRIEUX 11 rue Jean-Baptiste Clement 63200 RIOM, France; (the “**Assignor**”) have invented certain new and useful improvements listed in attached **Exhibit A** (the “**Invention**”) for which the Assignor have applied for United States patents (the “**Application**”) also listed in attached **Exhibit A**.

OXSITIS, a corporation organized under the laws of France (the “**Assignee**”), located at 16 rue Albert Evaux 63119 CHATEAUGAY, France, wishes to acquire the entire right, title, and interest to any United States patent that may be granted for the Invention and based upon the Application and the entire right, title, and interest to make, use, and sell the Invention within the United States of America and its territorial possessions.

In consideration of ten Euros (EUR) paid to the Assignor, and other good and valuable consideration, which the Assignor acknowledge receipt of, the Assignors assign, sell, and transfer to the Assignee the entire right, title, and interest in the Invention and the Application, and in all non-provisional applications for United States patents claiming priority to the Application, such as continuing applications and divisional applications, and in any United States patent and all reissues and extensions thereof that may be granted, together with the right to extend the protection for any resulting United States patent to the various territorial possessions now owned or which may be hereafter acquired by the United States of America, together with all rights of priority granted by local laws and treaties including any international convention, for the protection of industrial property, all rights conveyed herein to be held and enjoyed by the Assignee for its own use and benefit, and for the use and benefit of the Assignee’s successors or assigns, to the full end of the term for which any United States patent or industrial property right for the Inventions are enforceable, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment had not been made. The Assignor hereby authorize that any and all United States patents and any and all industrial property rights, when granted, be issued in accordance with this assignment to the Assignee.

The Assignor further warrant to the Assignee that the Assignor had full and unencumbered title to the Invention and Applications at the time this Agreement was made.

The Assignor further agree, without demanding any further consideration, at the request but at the expense of the Assignee, to do all lawful and just acts, including executing and acknowledging instruments, furnishing information, and giving testimony that may be or become necessary for obtaining, sustaining, or reissuing a United States patent, and for maintaining and perfecting the Assignee's right to the Invention and any United States patent and industrial property right granted for the Invention, such as in cases before the United States Patent and Trademark Office and litigation.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my signature, this day of September 21, 2020.
