ASSIGNMENT AGREEMENT

This ASSIGNMENT AGREEMENT ("Assignment") is made by and between Funda Sahin-Nomaler ("Inventor") and Laitram, L.L.C., a Louisiana limited liability company with offices located at 200 Laitram Lane, Harahan, Louisiana 70123, U.S.A. ("Assignee") regarding a patent application ("Application") titled ELECTROMAGNETIC CONVEYOR SYSTEM.

WHEREAS, the Inventor has invented one or more inventions disclosed or claimed in the Application ("Inventions") filed in the United States Patent and Trademark Office ("USPTO") on _____ and given Application No. _____;

WHEREAS, Laitram, together with its successors and assigns, and in accordance with agreements between Laitram's wholly owned subsidiary, Intralox, L.L.C. and Inventors' employer, Philips Electronics Nederland B.V. acting through Philips Innovation Services ("Agreements"), desires to acquire the entire right, title and interest in and to the Inventions and to the Applications (as defined in the Assignment). (The Agreements are governed by the General Terms and Conditions for the performance of Services, for hardware and/or software and reports, presentations or other documentation pertaining thereto, on a Time and Material basis, by Philips Electronics Nederland B.V. acting through Philips Innovation Services (Version February 2016), as amended by Amendment on March 14, 2017, replacing Clause 7 (Intellectual Property) of the original General Terms and Conditions.)

NOW, THEREFORE, the parties agree as follows:

1. For valuable consideration from the Assignee to the Inventor, the receipt and adequacy of which are hereby acknowledged, and in accordance with existing agreements duly entered into with Philips and the Agreements between Philips and Intralox, the Inventors hereby convey, transfer, and assign to the Assignee and its lawful successors and assigns, and the Assignee accepts the entire and exclusive right, title, and interest in and to the Inventions and all patents that may be granted on them in the United States and all other countries, territories, and jurisdictions in the world (collectively, "Countries") and to all existing or future related applications, divisions, substitutes, renewals, reissues, continuing applications, conversions, re-examinations, extensions, and any resulting patents thereof in all Countries (collectively, "Applications") for the full terms for which they may be granted and any rights associated with them, including, but not limited to, any and all royalties, profits, damages, fees, income, payments, and other proceeds now or later due or payable, and to the right to claim benefit and priority from the Applications in all the Countries.
2. The Inventor represents and warrants that she has the ability to convey all the rights and interests she assigned, that there are no rights or interests outstanding inconsistent with the rights and interests granted, and that we will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted in this Assignment.
3. The Inventor authorizes the Assignee to file for and request that the USPTO and corresponding bodies in each of the other Countries issue any and all patents resulting from any of the Applications to the Assignee.
4. This Assignment inures to the benefit of the Assignee and its successors, assigns, and other legal representatives, and is binding on the Inventor and her respective heirs, legal representatives, and assigns.

5. The Inventor shall take the steps and actions and provide the cooperation and assistance at the Assignee's expense to the Assignee and its successors, assigns, and legal representatives, in connection with the Inventions and the Applications, or for any inventions and discoveries derived therefrom, as may be necessary to effect, evidence, or perfect the Assignment to the Assignee or any assignee or successor thereto, including, but not limited to: the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, documents in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar treaties and agreements, or other lawful papers; the execution and delivery of all papers necessary in connection with any administrative or judicial proceedings; and the provision of information and testimony and cooperation in every way in obtaining and producing evidence and prosecuting such proceedings.
6. The Inventor hereby grants Assignee the power to insert on this Assignment any further identification information, including an application number and filing date, which may be necessary or desirable.
