## Assignment of Patent Rights to US Non-Provisional Utility

### Patent Applications 17/024,706 and 17/024,707

Michael John Caple, and John Stabenau ("Assignors") are the inventors of U.S. Patent Application Numbers: 17/024,706, titled "The Use of Micro-Particle Amorphous Silicate in Well Stimulation" filed on September 17<sup>th</sup>, 2020 and U.S. Patent Application Number: 17/024,707, titled "The Method of Using Micro-Particle Amorphous Silicate in Well Stimulation" also filed on September 17<sup>th</sup>, 2020 (the "Patent Applications"). Oil Field Packaging LLC ("Assignee"), a Colorado LLC, located at: 3070 Blake St. #200, Denver CO 80205 desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions that may be granted).

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignors assigns to Assignee 100% of their right, title, and interest in the inventions and Patent Applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; to Assignee for the entire term of the issued Patents and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; filed claiming the benefit of the Patent Applications and any priority rights resulting from the Patent Applications.

Assignors authorizes the United States Patent and Trademark Office as well as all foreign patent offices to issue any Patents resulting from the Patent Applications to Assignee according to the percentage interest indicated in this assignment (100%). The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignors had this assignment not been made.

Assignors further agrees to (a) cooperate with Assignee in the prosecution of the Applications and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Assignors further agrees to irrevocably designate and appoint Assignee and its duly authorized officers and agents as limited attorney-in-fact to act for and in Assignor's behalf and stead to execute and file any lawful and necessary documents, and to do all other lawfully permitted acts, required for the assignment of, application for, or prosecution of the invention and Patent Applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom.
