WHEREAS, Delta T, LLC (f/k/a Delta T Corporation), a Kentucky limited liability company ("Assignee" and, together with Assignor, the "Parties"), wishes to acquire the Patents;

WHEREAS, the Parties previously entered into a license agreement relating to the Patents, executed on or about October 31, 2017 (the "Prior License Agreement");

WHEREAS, the Parties previously entered into an Acquisition, Assignment and Assumption Agreement relating to, among other things, the Patents, executed on or about October 31, 2017, as amended by the Modification and Clarification of Acquisition, Assignment and Assumption Agreement dated November 17, 2017 (as so amended, the "Prior Assignment Agreement");

WHEREAS, Assignor previously entered into a letter agreement with Lindsay Goldberg LLC relating to a covenant not to sue in respect of the Patents, executed on November 17, 2017 (the "Letter Agreement");

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Assignor hereby assigns, transfers, conveys, and delivers to Assignee and its successors and assigns, and Assignee hereby accepts from Assignor, all of Assignor's right, title, and interest in, to, and under the Patents, including, without limitation, any applications, divisions, continuations, continuations in part, renewals, reissues, reexaminations, foreign filings, and any extensions thereof, and any and all patents granted thereon, and any and all rights to sue for past infringement of the Patents.

2. Assignor shall, without further consideration, execute and deliver any additional documents and take such further action as may be requested to vest in Assignee good, valid and marketable title to the Patents. Assignor hereby grants Assignee the power to insert on this Agreement any further identification and to take such further action that may be necessary or desirable in order to comply with the rules of the U.S. Patent and Trademark Office (the "USPTO"), or rules of other corresponding agencies or entities in any applicable jurisdiction including, but not limited to, United States federal or state governments or foreign governments ("Corresponding Agencies"), for recordation of this Agreement, including to reflect Assignee as the assignee and owner of the Patents.

Assignor hereby authorizes the Commissioner and other empowered officials of the USPTO and officials of Corresponding Agencies to record and register this Agreement upon request by Assignee.

3. Assignor represents and warrants that (a) it has the full power and authority to enter into this Agreement, (b) it has not previously assigned, licensed, or otherwise transferred or conveyed any rights related to the Patents to any third party, and (c) the execution of this Agreement by Assignor will not violate any agreement, whether written or oral, to which Assignor is a party or is otherwise bound.

4. The Parties hereby terminate the Prior License Agreement, including any and all survival of any provisions of the Prior License Agreement going forward, and waive any requirement for prior written notice of termination of the Prior License Agreement.

5. The Parties acknowledge that Section 8 of the Prior Assignment Agreement shall not apply to this Agreement and the assignment contemplated hereby.

6. Assignee hereby agrees to be bound, and Assignor hereby acknowledges that Assignor shall continue to be bound, by the terms of the Letter Agreement in all respects, *mutatis mutandis*.

7. This Agreement, the rights, duties, and obligations of the parties under this Agreement, and any claim or controversy directly or indirectly based upon, arising out of or related to, this Agreement shall be governed by, interpreted under, and construed and enforceable in accordance with, the laws of the State of Kentucky, without regard to any conflict of laws provisions that would require the application of the law of any other jurisdiction.
