AND WHEREAS the Assignors have agreed to sell, assign and transfer and have sold, assigned and transferred all of their right, title and interest in and to the invention and all patent rights throughout the world in connection therewith, including any letters patent which may be granted in connection with the invention, to and unto:

AIFORIA TECHNOLOGIES OY

(the "Assignee");

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, be it known that, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the Assignors, the Assignors have sold, assigned, transferred and set over, and hereby do sell, assign, transfer, and set over, unto the said Assignee all of their right, title, and interest in and to the said Invention, all changes, improvements, and advancements relating to the invention, the Application, all patent applications and patents relating to any of the foregoing, including all divisionals, continuations, continuations-in-part, international applications, national phase entry applications, renewals, substitutions, conversions, prolongations, extensions, provisionals, and/or reissues of and/or relating to any of the foregoing in all countries, regions, and other jurisdictions throughout the world, all rights to file any of the foregoing patent applications, all rights arising under any and all intellectual property treaties throughout the world in relation to any of the foregoing, all rights of priority and priority claims resulting from or related to any of the foregoing, all patents issuing on and/or from any of the foregoing, and all rights to sue for and recover damages, including royalties, for any past, present or future infringement of any patent application or patent identified above (collectively hereinafter the "Assigned Patent Rights"), the said right, title, and interest to be held and enjoyed by said

Assignors further agree that the Assignors will, without charge to the Assignee, or Assignee's successors and assigns, but at the expense of the Assignee, or Assignee's successors and assigns, cooperate with the Assignee, or Assignee's successors and assigns, in the prosecution of the Application and/or applications related to said Assigned Patent Rights, execute, verify, acknowledge, and deliver all such further papers and/or documents, including applications for patent, registration, or other rights and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee, or Assignee's successors and assigns, lawfully may request, to obtain and/or maintain any and all of the Assigned Patent Rights and to vest title thereto in said Assignee, or Assignee's successors and assigns.
