PATENT ASSIGNMENTS

In consideration of good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor named below hereby assigns and confirms that it has assigned to the Assignee named below, whose address is as shown below, all of its interest for Canada, the United States and the entire world in the following listed patent applications and/or patents, the inventions described therein, any patent granted from the patent applications including but not limited to all divisional, continuation, continuation-in-part, renewal, reissue, and substitute applications, and any patent or patent application claiming domestic or foreign priority from any one or more of the patent applications, including the right to claim priority from the patent applications under any national law or international convention:

SEE ATTACHED SCHEDULE "A"

Each Assignor agrees that he will, without further consideration, but at the expense of Assignee, do all such things and execute all such documents as may be necessary or desirable to obtain and maintain patents for the inventions and for additions and modifications thereto in any country. Each Assignor represents that he enters into this assignment as his own free act, and consents to disclosure of all personal information contained herein to the extent required to prosecute, maintain and enforce the rights assigned.

This Assignment is governed by the laws of Alberta, Canada.

Assignor name: Sandtinel Technology Inc.
