and in which the Inventor is named as inventor (the “Application”).

In consideration of One (\$1.00) Dollar, and other good and valuable consideration duly provided by the Assignee to the Inventor, the receipt and sufficiency of which is hereby acknowledged by the Inventor:

1. The Inventor hereby irrevocably confirms the transfer and assignment, and sells, transfers and assigns to the Assignee, for the Assignee’s benefit and the benefit of its successors and assigns, all rights, title and interest everywhere in the world, and in all countries, and regions in the world, including but not limited to Canada and the United States, in and to:
 - a. the Invention;
 - b. the right to file patent applications with respect to the Invention, all corresponding rights, title and interest in and to any priority claims;
 - c. all patent applications with respect to the Invention whether filed prior to or after the date of this assignment, including without limitation the Application and all applications under the Patent Cooperation Treaty and Paris Convention for the Invention, and any subsequent national and regional applications following thereon, and any patent applications that include additional or reduced subject matter and filed as a continuation, divisional, continuation in part, patent of addition, reissue or similar procedure; and

- d. to receive such patents as may result from such procedures, and any patent which may issue for any aspect of the Invention.
2. The Inventor hereby further agrees to communicate to the Assignee, its successors or assign any facts as may be acquired respecting the Invention and any improvements to the Invention, and without further consideration sign all lawful papers, execute all divisional, continuation, reissue and substitute applications, make all lawful oaths, testify in any legal proceedings at the expense of the Assignee, and generally do everything reasonably possible to aid the Assignee, its successors and assigns, to obtain proper patent protection for the Invention in all countries and regions of the world.
3. This Assignment is effective the earlier of the filing date of the Application and the date it is signed by the Inventor.
