For good and valuable consideration, the receipt of which is hereby acknowledged, I,

William L. Driskell, a citizen of the United States of America, having a mailing address 11901 Grandview Road, Grandview MO 64080 (hereinafter, "Assignor"), who, having created, and believing myself to be an original inventor of, a certain invention entitled:

PUMP DISPENSER WITH ACTUATING COLLAR

and for which an application for U.S. Letters Patent was filed **26 February 2019**, as US Application No. **16/328,351**;

do hereby sell, assign, transfer, and set over to:

Silgan Dispensing Systems Corporation, a Delaware corporation, having a principal place of business at 11901 Grandview Avenue, Grandview, MO 64080,

(hereinafter, "Assignee"), its successors, assigns, and legal representatives, the full and exclusive right to said invention and said application and to any and all inventions described in said application for the United States, its territorial possessions and all foreign countries, and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States, its territorial possessions and all foreign countries; and in and to any and all continuations-in-part, continuations, divisions, substitutes, reissues, extensions thereof, and all other applications for Letters Patent relating thereto which have been or shall be filed in the United States, its territorial possessions and/or any foreign countries, and all rights, together with all priority rights, and to any claims for past, present, or future infringement of any Letters Patent or intellectual property resulting from the invention, under any of the international conventions, unions, agreements, acts, and treaties, including all future conventions, unions, agreements, acts, and treaties.

I authorize Assignee to apply for and receive Letters Patent for such protection in its own name, in the United States, its territorial possessions, and all foreign countries; and that, when requested to carry out in good faith the intent and purpose of this assignment, at the expense of said Assignee, but without charge to Assignee, its successors, assigns and legal representatives, the undersigned will execute all continuations-in-part, continuations, divisions, substitutes, reissues, and extensions thereof, execute all rightful oaths, assignments, powers of attorney and other papers, testify in any legal or quasi legal proceedings; communicate to said Assignee, its successors, assigns, and legal representatives all facts known to the undersigned relating to said invention and the history thereof; and generally do everything possible which said Assignee, its successors, assigns or legal representatives shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said invention and for vesting title to said invention and all applications for patents on said invention in said Assignee, its successors, assigns and legal representatives.

I hereby: (i) acknowledge that any willful false statements made in this assignment and declaration are punishable under 18 USC 1001 by fine or imprisonment of not more than 5 years, or both; (ii) acknowledge my obligation to assign the invention and all applications related to said invention to the Assignee at the time the invention was made; and (iii) covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
