## ASSIGNMENT

In consideration of the sum of One Dollar (\$1.00) and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Frederick D. Sancilio** and **Thorsteinn Thorsteinsson** (each an "Assignor" and collectively, "Assignors") hereby sell and assign to **THERAPEUTICSMD, INC.**, a corporation having a mailing address at 6800 Broken Sound Pkwy NW, Third Floor, Boca Raton, FL 33487 ("Assignee"), their entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, for the United States of America (as defined in 35 U.S.C. § 100) and throughout the world, in and to:

(a) any and all inventions described and/or claimed in U.S. Provisional Patent Appl. No. 62/196,021 filed July 23, 2015;

(b) in any and all U.S., foreign, and international applications that claim the benefit of U.S. Provisional Patent Appl. No. 62/196,021, as well as any continuing (continuation or divisional) applications, reissues, extensions, renewals, reexaminations, Letters Patents (to the full extent of the term or terms for which Letters Patents issue), and Supplemental Protection Certificates, resulting from and/or claiming priority to any of the foregoing; and

(c) in any and all forms of intellectual and industrial property protection derivable from such patent applications, and that are derivable from any and all continuing applications, reissues, extensions, renewals and reexaminations of such patent application, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by Assignee, its successors, legal representatives, and assigns to the same extent as all such rights, title, and interest would have been held and enjoyed by Assignors had this assignment and sale not been made.

Each Assignor hereby agrees to execute all papers supplied by Assignee in connection with the application identified in part (a), above, and any applications, patents, or other properties identified in parts (b) and (c), above, and also to execute any separate assignments in connection with any of such properties as Assignee may deem necessary or expedient.

Each Assignor further agrees to execute all papers supplied by Assignee in connection with any interference or patent enforcement actions (judicial or otherwise) related to the applications, patents, and other properties identified in parts (a), (b), and (c), above, and to reasonably cooperate with Assignee, at Assignee's costs and expense, in every way possible in Assignee's efforts to prosecute or defend these actions.

Each Assignor hereby represents that he/she has full right to convey the entire interest herein assigned, and that he/she has not executed, and will not execute, any conflicting agreement.

The undersigned Assignors hereby grant the patent practitioners associated with **CUSTOMER NUMBER 123282** the power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

Each undersigned Assignor hereby represents that he/she understands that the patent practitioners associated with **CUSTOMER NUMBER 123282** are the legal representatives of, and attorneys for, Assignee, and are NOT the legal representatives of, and attorneys for, Assignors.
