WHEREAS, Bould Design, a California Limited Liability Company, having its principal place of business at 1135 N Amphlett Blvd., San Mateo, CA 94401 (the "Assignee"), desires to acquire any and all, right, title, and interest of Assignor in and to the Invention and the Intellectual Property Rights;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred and by these presents does hereby sell, assign and transfer to Assignee, and Assignee's legal representatives, successors and assigns, any and all of Assignor's entire right, title and interest in and to the Invention and the Intellectual Property Rights;

UPON SAID CONSIDERATION, Assignor hereby covenants and agrees with Assignee that it has not, and will not, execute any writing or do any act whatsoever conflicting with these presents, and that it will, at any time upon request, without further or additional consideration, but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining the Invention and the Intellectual Property Rights, and execute confirmatory assignments or acknowledgments of this assignment as necessary for full enjoyment of the Invention and the Intellectual Property Rights and for recording in foreign patent offices, and in enforcing any rights or choses in action accruing as a result of the Invention and the Intellectual Property Rights, by giving testimony in any proceedings or transactions involving the Invention and the Intellectual Property Rights, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of both parties;

UPON SAID CONSIDERATION, Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey any and all right, title, and interest in the Invention and the Intellectual Property Rights, and that Assignor has not conveyed nor will convey hereafter all or part of the Invention and the Intellectual Property Rights to a third party;
