## **EXHIBIT A**

### **PATENT ASSIGNMENT AGREEMENT**

This Patent Assignment Agreement (this “Patent Assignment”), dated September 3, 2019, is made by and among Heartland Capital Funding, LLC, a Texas limited liability company (the “Assignor”) and Bridge to Life Ltd., a Wyoming corporation (the “Assignee”). Assignor and Assignee are referred to herein individually as a “Party” and collectively as the “Parties.”

WHEREAS, Assignor is the owner of all right, title and interest in and to the Assigned Patents (as defined below); and

WHEREAS, Assignor wishes to assign to Assignee, and Assignee wishes to accept, all right, title and interest in and to the Assigned Patents.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee, each intending to be legally bound, hereby agree as follows:

#### **1. ASSIGNED PATENTS**

The term “Assigned Patents” means any patents and patent applications set forth on Schedule 1 attached hereto, including any continuations, divisionals, continuations-in-part, provisionals and patents issuing on any of the foregoing, any renewals, reexaminations, substitutions, extensions and reissues of any of the foregoing, and any patent or patent application that claims priority to any of the foregoing or to which a claim of priority is made by any of the foregoing.

#### **2. ASSIGNMENT**

Assignor hereby assigns, conveys and transfers, and agrees to assign, convey and transfer, to Assignee, and Assignee hereby accepts and agrees to accept, all of Assignor’s right, title and interest in and to the Assigned Patents, including: (i) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions or otherwise throughout the world, (ii) any and all royalties, fees, income, payments and other proceeds now or hereafter due and payable with respect to any and all of the foregoing, (iii) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, and the right to sue, enforce claim remedies and recover damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement or other unauthorized use of the Assigned Patents, with the right but no obligation to sue for such legal and equitable relief and to enforce and collect, or otherwise recover, any such damages, and (iv) the right to prosecute and maintain any of the Assigned Patents, including the rights to prosecute and make claims of priority to any of the Assigned Patents or to which a claim of priority is made by any of the foregoing.

**3. FURTHER ACTIONS**

Following the date of this Patent Assignment, upon Assignee's reasonable request, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, enforce or perfect the assignment of the Assigned Patents to Assignee, or any assignee or successor thereto.

**4. RECORDATION**

Assignor hereby authorizes and requests the Commissioner of the United States Patent and Trademark Office, and any other applicable governmental entity and/or registrar necessary, to register this Patent Assignment and record Assignee, or its designee, as the assignee and owner of the Assigned Patents.
