**EXHIBIT C2**  
**PATENT ASSIGNMENT**

In consideration of One Dollar (\$1.00), and other good and valuable consideration, the Receipt of which is hereby acknowledged, we the undersigned, Tissue Genesis, LLC, a Delaware limited liability company (hereinafter, the "ASSIGNOR");

Hereby sell, assign and transfer to Koligo Therapeutics, Inc., a Kentucky corporation, and its successors, assigns and legal representatives (hereinafter, the "ASSIGNEE"), the entire right, title and interest of ASSIGNOR for all countries in and to the patents and patent applications listed in **Exhibit A** annexed hereto, and all divisional, continuing, substitute, renewal, reissue, and all other applications for U.S. Letters Patent or other related property rights in any and all foreign countries which have been or shall be filed on any inventions and subject matter disclosed or described in said patents and patent applications; and in and to any and all subject matter and inventions which are disclosed, described and/or claimed in the patents and patent applications including, without limitation, the patents and patent applications and their priority applications, and all extensions, renewals, and reissues of such applications, including all divisions and continuations in whole or in part; and including the ASSIGNOR's right in and to all revenue, income, royalties, damages and payments now or hereafter due or payable with respect to any Letters Patent which may be granted, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment;

Authorize and request the Patent Office to issue to said ASSIGNEE, the corporation above named, its successors, assigns and legal representatives, in accordance with this assignment, any and all Letters Patent on said inventions or any of them disclosed in said patents and patent applications;

Agree that said ASSIGNEE may apply for and receive Letters Patent or rights of any other kind for said inventions, or any of them; and may claim, in applications for said Letters Patent or other rights, the priority of the aforesaid patents and patent application under the provisions of the International Convention of 1883 and later modifications thereof, under the Patent Cooperation Treaty, under the European Patent Convention or under any other available international agreement; and that, when requested, without charge to, but at the expense of, said ASSIGNEE, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the under-signed or the undersigned's executors or administrators will, for any and all countries, execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications or other documents on any and all said inventions; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said ASSIGNEE, its successors, assigns and representatives, all facts known and documents available to the undersigned relating to said inventions and the history thereof; testify in all legal proceedings; and generally do everything possible which said ASSIGNEE, its successors, assigns or representatives shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said inventions and for vesting title to said inventions and all applications for patents or related foreign rights and all patents on said inventions, in said ASSIGNEE, its successors, assigns and legal representatives; and

**IRREVOCABLY APPOINT** the ASSIGNEE to be the undersigned's attorney in his name and on his behalf to execute documents, use the undersigned's name and do all things which are necessary or desirable for the ASSIGNEE to obtain for itself or its successors, assigns and legal representatives the full benefit of this agreement; A certificate in writing, signed by any director or the secretary of the ASSIGNEE or by any person appointed in accordance with this clause, that any instrument or act falls within the authority conferred by this agreement shall be conclusive evidence that such is the case so far as any third party is concerned; This power of attorney is irrevocable as long as the undersigned's obligations under this agreement remain undischarged; Without prejudice to the foregoing, the attorney may, in any way it thinks fit and in the name and on behalf of the undersigned: (a) take any action that this agreement requires the undersigned to take; (b) exercise any rights which this agreement gives to the undersigned; and (c) appoint and remove one or more substitute attorneys with full power as the undersigned's attorney on terms that the attorney thinks fit; The undersigned must ratify and confirm everything that the attorney and any substitute attorney does or arranges using the powers granted under this clause.

**COVENANT** with said ASSIGNEE, its successors, assigns and legal representatives that no assignment, grant, mortgage, license, no lien, or security interest, collateral or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
