TO Hewlett Packard Enterprise Development LP

QUITCLAIM AND PATENT ASSIGNMENT

FROM

Hewlett-Packard Development Company, L.P.

TO

Hewlett Packard Enterprise Development LP

WHEREAS, the inventors of the patents and patent applications listed in Exhibit A ("Subject Patents") executed one or more assignment agreements purporting to assign these inventors' rights in the Subject Patents to Hewlett-Packard Development Company, L.P., a Texas Limited Partnership having its principal place of business at 10300 Energy Drive, Spring, Texas 77389, U.S.A. (hereinafter referred to as "HPDC");

WHEREAS HPDC and Hewlett Packard Enterprise Development LP, a limited partnership established under the laws of the State of Texas and having a principal place of business at 11445 Compaq Center Drive West, Houston, Texas 77070, U.S.A. (hereinafter referred to as "HPED") agree the inventors of the Subject Patents executed the one or more assignment agreements purporting to assign the inventors' rights in the Subject Patents to HPDC in error;

WHEREAS HPDC and HPED further agree the inventors of the Subject Patents should have executed one or more assignment agreements assigning the inventors' rights in the Subject Patents to HPED; and

WHEREAS HPED desires to own the entire right, title and interest, including the right of priority, in, to and under the Subject Patents effective as of the priority filing dates of the Subject Patents and document HPED's ownership of the same;

NOW THEREFORE, for good and valuable consideration, the adequacy of which is hereby acknowledged, HPDC and HPED agree as follows:

HPDC quitclaims, assigns and transfers any and all of the right, title and interest HPDC may have in and to the Subject Patents, including without limitation all rights of priority, in, to and under the Subject Patents, and any inventions and improvements set forth therein, and any and all continuations, continuations-in-part (C-I-P's), divisionals, and renewals of and substitutes for any of the Subject Patents, and any and all patents and patent applications of the United States and of foreign countries thereto that may be granted thereon or therefor, and any reissues, or reexaminations, or extensions thereof and any goodwill of the business symbolized by the Subject Patents, and the registration thereof. HPDC confirms that HPED shall have the right to sue, counterclaim and recover for past, present, and future infringement and collect any royalties to third parties, damages (including past damages), or other income relating to the Subject Patents.

This QUITCLAIM AND PATENT ASSIGNMENT shall not limit or abridge any rights, title, or interest previously assigned to HPED or any non-ownership rights or interests previously granted to HPDC or others.

In connection with the foregoing, HPDC hereby confirms that the respective patent office or governmental agency in each jurisdiction may record the transfer of the Subject Patents to HPED as assignee of any of HPDC's right, title and interest therein, and to issue any and all patents or certificates of invention or equivalent which may be granted upon any of the Subject Patents in the name of Assignee, as the assignee to the entire interest therein.

IN WITNESS WHEREOF, HPDC and HPED have caused this QUITCLAIM AND PATENT ASSIGNMENT to be executed by their authorized representatives.
