## CONFIRMATORY ASSIGNMENT

WHEREAS, we, Adriana Kliegman residing in New York County, New York, Arsenio Garcia residing in Kings County, New York, and Kevin R. Lozeau residing Charlotte, North Carolina, have invented one or more inventions (hereinafter referred to as "said invention(s)") and other Intellectual Property rights disclosed in the following applications for Letters Patent of the United States (hereinafter referred to as "said applications"):

U.S. Design Patent Application No. 29/759,175, filed on even date herewith, under Attorney Docket No. 541-102, and entitled Neck Cushion;

WHEREAS, Acutens, Inc., having a place of business in Long Island City, New York (hereinafter together with its successors and assigns referred to as "the Assignee"), is desirous of obtaining all right, title and interest in, to and under said Intellectual Property and said applications; and

NOW, THEREFORE, for good and valuable considerations, the receipt and sufficiency of which we hereby acknowledge, we have sold, assigned, transferred and set over, and by these presents hereby sell, assign, transfer and set over to the Assignee all right, title and interest in, to and under said Intellectual Property and said applications, including the right to apply for any Letters Patent of the United States of America and in any and all foreign countries on said invention(s), and any and all other applications for Letters Patent on said invention(s), in whatsoever countries, including all divisional, renewal, substitute, continuation, continuation-in-part and convention applications based in whole or in part upon said invention(s) or upon said applications, and any and all Letters Patent which may issue thereon in the United States and foreign countries, and any and all reissues, extensions, renewals, divisions, continuations or continuations-in-part of Letters Patent granted for said invention(s) or upon said applications, to the full term or terms for which said Letters Patent may be issued, and every priority right that is or may be predicated upon or arise from said invention(s), said application and said Letters Patent, the same to be held and enjoyed by the Assignee for its own use and benefit fully and entirely as if the same would have been held and enjoyed by us had this Assignment not been made. We hereby authorize the Assignee to file patent applications in any and all countries on any or all of said invention(s) in our names, or in its name, or otherwise as the Assignee may deem advisable, under the International Convention or otherwise.

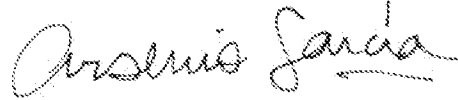

Intellectual Property includes any and all intellectual and intangible property, which now and may in the future exist, including (i) inventions, patents, copyrights, trade names, trademarks, service marks, mask works, names and logos, trade dress, trade secrets, software, inventions, databases, processes, technology, know-how, other proprietary information, preparatory materials for and derivative works of the foregoing, (ii) all registrations, applications for such rights, and all continuations, continuations in part, divisional applications and renewals of any of the foregoing, and (iii) analogous rights to those set forth above. Any work product by in and to said inventions and said application shall be a "work made for hire" within the meaning of United States Copyright Law and shall immediately become the sole and exclusive property of Assignee. To the extent any such work product or any part thereof is not deemed to be a "work made for hire," we hereby assign to Assignee the entire right, title and interest in and to such work product and the benefits and/or rights resulting therefrom.
