ASSIGNMENT

"INVENTOR" means CHUNYU GAO, an individual with an address at 5956 N Campo Abierto, Tucson, AZ, 85718.

"INVENTIONS" means all inventions and discoveries made by the INVENTOR (or persons working with, under the direction or supervision of, or on behalf of, the INVENTOR) relating to **Compact Eye-Trackted Head-Mounted Display**, and all information, data, know-how, and materials pertinent to any of the foregoing, whether or not included or claimed in any PATENT or PATENT APPLICATION.

"PATENT" means a patent or Certificate of Invention or Utility Model or Design Registration or other form of protection for the INVENTIONS issued by a government or governmental agency, including any reexamination certificates, reissues, renewals and extensions thereof.

"PATENT APPLICATION" means an application for a PATENT, including any divisionals, continuations, continuations-in-part, continuing applications, additions and substitutions thereof, claiming any INVENTION, including, without limitation, **PCT Application Ser. No. PCT/US13/22918 filed on January 24, 2013**.

"PATENT RIGHTS" means (a) all right, title and interest in and to the INVENTIONS, any PATENT APPLICATIONS filed or to be filed, and any PATENTS issued or issuing on such PATENT APPLICATIONS; (b) the right to file PATENT APPLICATIONS on any INVENTION and to have any PATENTS issued in the name of the owner or assignee, and (c) the right to claim any priority right to which the INVENTOR or anyone claiming under the INVENTOR may be entitled, including, without limitation, rights to claim priority to **PCT Application Ser. No. PCT/US13/22918 filed on January 24, 2013**.

"AUGMENTED VISION INC." (hereinafter "COMPANY") is an Arizona Corporation located at **5956 N. Campo Abierto, Tucson, Arizona 85718**.

1. In consideration of \$1.00 and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, INVENTOR hereby assigns, sells and transfers to COMPANY all his/her right, title and interest in and to the INVENTIONS and PATENT RIGHTS. Further, INVENTOR grants COMPANY the right to claim priority to any PATENT APPLICATION.

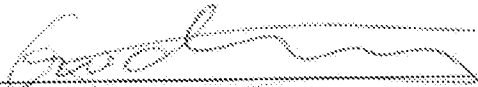

2. This assignment shall allow COMPANY to file PATENT APPLICATIONS in its own name (but naming the INVENTOR as an inventor) in all countries of the world (where it is permissible) and the right to claim the benefit of the priority right provided by the Paris Convention or the Patent Cooperation Treaty.

3. INVENTOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and all other patent authorities and agencies to issue to COMPANY all PATENTS that may be granted.

4. The INVENTOR agrees to execute any and all further documents that COMPANY considers necessary or appropriate to fully protect and perfect COMPANY's interest in the INVENTIONS and PATENT RIGHTS.

5. The INVENTOR represents and covenants that he has not granted any right or license to make, use or sell the INVENTIONS or PATENT RIGHTS to anyone; provided, however, that the U.S. Government may have rights in the **Compact Eye-Tracked Head-Mounted Display INVENTION** by reason of sponsorship of research leading to the making of the **Compact Eye-Tracked Head-Mounted Display INVENTION**.

6. The INVENTOR also represents and covenants that no consents of any other parties are necessary to give legal effect to the assignment made hereby, that COMPANY shall have good and marketable title to the INVENTIONS and PATENT RIGHTS, free and clear of all liens, encumbrances, licenses or charges of any nature whatsoever, and that he has not signed and will not sign any document that conflicts with this assignment, except for documents necessary to memorialize or protect the rights, if any, of the U.S. Government in the INVENTIONS.
