ASSIGNMENT OF INVENTION

WHEREAS, Christoffer Edlund, an individual residing at Kungsgatan 117 90332 Umea, Sweden (hereinafter "Employee"), is employed by Sartorius Stedim Data Analytics AB, with its principal address at Östra Strandgatan 24 903 33 Umeå Sweden (hereinafter "Sartorius"), and as part of his/her employment has performed work in connection with the design, discovery, development or improvement of the inventions described on Exhibit A (hereinafter the "Invention"); and

WHEREAS, as a condition of employment with Sartorius, Employee is under an obligation to assign to Sartorius any inventions he/she makes that relate to the scope of his/her employment by Sartorius;

NOW THEREFORE, for and in consideration of the sum of **1500 SEK**, and other valuable consideration ("Consideration"), to Employee in hand paid, the receipt and sufficiency whereof is hereby acknowledged, Employee hereby:

- (a) confirms his/her assignment sale, conveyance and transfer unto Sartorius, its successors and assigns (including without limitation Sartorius and any other affiliates thereof or of Sartorius) (collectively, the "Assignees" and each of them, an "Assignee"), the entire right, title and interest in and to the Inventions and Employee's entire right, title and interest in and to any Letters Patent which may issue thereon, and the right to apply for any Letters Patent in the United States and in any and all foreign countries on the Inventions, including all divisional, renewal, substitute and continuation applications based in whole or in part upon the Inventions, or upon any and all Letters patents that may issue thereon, and every priority right and the right to claim same that is or may be predicated upon or arise from said invention or the applications arising therefrom, the same to be held and enjoyed by Sartorius and any Assignee for the use and enjoyment of Sartorius or any Assignee, to the full end of the term for which any said Letters Patent are granted, as fully and entirely as the same would have been held and enjoyed by it if no assignment and sale had been made;
- (b) authorizes Sartorius and any Assignees to file patent applications in any or all foreign countries on any of the Inventions in its or any Assignee's name or otherwise as Sartorius may deem advisable;
- (c) authorizes the empowered officials of all relevant governments to issue or transfer all Letters Patent granted to Sartorius or any Assignee and the entire right, title and interest therein or otherwise as Sartorius or any Assignee may direct, in accordance with this instrument of assignment;
- (d) represents and warrants to Sartorius and any Assignee that
 - (i) there are no rights or interests outstanding inconsistent with the rights and interests granted herein,
 - (ii) Sartorius has not executed any instrument or granted or transferred any rights or interests inconsistent with the rights and interests granted herein, and
 - (iii) he/she will not execute any instrument or grant or transfer any rights or interests inconsistent herewith;
- (e) binds him/herself, his/her successors and assigns, to execute and deliver to Sartorius

and any Assignees, and irrevocably appoints Sartorius and its Assignees its true and lawful attorney-in-fact on Employee's behalf, and in Employee's name, place and stead, to execute any further documents or instruments and do any and all further acts that may be deemed necessary or desirable by Sartorius and its Assignees to support and effect the conveyance of the title, right and as and where contemplated by Sartorius and its Assignee and to enable such title to be recorded in the United States and all foreign countries, and to enable Sartorius and its Assignees to sustain or reissue any Letters Patent granted, and to maintain, perfect, support, protect, assert and defend the right, title and interest of Sartorius and any Assignee, in and to any Invention and any Letters Patent granted, for particular example, in cases of interference, litigation or other proceeding in voting any Letters Patent or Invention;

(f) covenants and agrees, in consideration of the premises, that Employee and his/her successors and assigns will at any time upon the reasonable request of Sartorius and/or its Assignee, during normal working hours while employed by Sartorius and thereafter at Sartorius's expense where same is reasonable and justifiable, communicate to Sartorius and any Assignee any facts relating to the any Invention and to the history thereof, known to Employee or its successors and assigns; and

(g) covenants and agrees that Employee and his/her successors and assigns will, upon the reasonable request of Sartorius and its Assignees, during normal working hours while employed by Sartorius and thereafter at Sartorius's expense where same is reasonable and justifiable, testify as to the same in any interference, litigation or other proceeding involving any Letters Patent or Invention; and

(h) understands and agrees that this Assignment has been made and no rights to the Invention shall remain with Employee, whether or not Sartorius elects to apply for any Letters Patent in the United States or any foreign country; and

(i) understands and agrees that this Assignment does not create an employment agreement or guarantee employment of Employee at Sartorius for any period of time whatsoever; Employee's employment status remains at-will; and

(j) understands and agrees that Sartorius' remittance of Consideration hereunder is completely voluntary on the part of Sartorius, that no further or future obligation to remit payment for any other or future Assignment of Invention on the part of Employee is guaranteed, promised, or relayed, and that Sartorius may discontinue, change, modify, alter or cancel such practice at any time hereafter with respect to Employee or any other employee, agent or representative at Sartorius' sole discretion.
