ASSIGNMENT OF INVENTION AND OF LETTERS PATENT

WHEREAS, I, Brian Neal Dixon of Mt. Washington, Kentucky, have invented certain improvements in a SYSTEM AND METHOD FOR PROCESSING RECYCLED ASPHALT PAVEMENT OR AGGREGATE FOR ASPHALT PRODUCTION and have executed an application for United States Letters Patent therefor, namely, U.S. Application Serial No. 17/108,790 filed on December 1, 2020; and

WHEREAS, Reliable Asphalt Products, Inc. (hereinafter referred to as "Assignee"), a Kentucky corporation with a principal business address of P.O. Box 519, Shelbyville, Kentucky 40066 (including its successors and assigns), desires to acquire my entire right, title, and interest in said application and invention and any United States and foreign patents to be obtained therefor;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, the undersigned has sold, assigned, and transferred, and by these presents does sell, assign, and transfer to Assignee, its heirs, successors, legal representatives, and assign the right, title, and interest of the undersigned in and to said invention, said application, and in and to any Letters Patent(s) that may be granted therefor in the United States of America, its territories, dependencies, and possessions, and in any and all foreign countries, including rights of priority under the International Convention of Paris (1883) as amended; and to any and all utility applications claiming priority thereto and any and all divisions, reissues, continuations, continuation-in-parts, conversions, and extensions thereof for the full term or terms for which the same may be granted in the United States of America or any foreign country.

The undersigned agrees that the Assignee may apply for domestic and foreign Letters Patent on the invention, and agrees to cooperate with the Assignee, and to execute without additional consideration any additional documents as deemed necessary by the Assignee to apply for or maintain patents or other legal protection for the invention in any country of the world.

The undersigned agrees to execute all papers necessary in connection with this application and any divisions, reissues, continuations, continuation-in-parts, conversions and extensions thereof and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The undersigned agrees to execute all papers and documents and to perform any act which may be necessary in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar agreements.

The undersigned hereby authorizes and requests the officials of the U. S. The undersigned hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment.

The undersigned also grants the law firm of Stites & Harbison, PLLC the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the U.S. Patent and Trademark Office for recordation of this document, including serial numbers and filing dates above.
