ASSIGNMENT OF INVENTION

WHEREAS, we, **KIRA BARRETT**, residing at 3290 Creamery Road, New Hope, Pennsylvania 18938, and **DANIELA CAINE**, residing at 1268 NW Summit Avenue, Portland, Oregon 97210, have invented certain new and useful improvements for a **GARMENT**, for which we have made applications for Letters Patent identified in Schedule A attached hereto, one of the patent applications having issued as a patent;

AND WHEREAS, **FTTBUMP LLC**, a corporation duly organized and existing under and by virtue of the laws of the State of New York, and having a place of business at 3290 Creamery Road, New Hope, Pennsylvania 18938, hereinafter called the "Assignee," desires to acquire all right, title and interest in and to said invention, patent applications and patent within the United States and its territorial possessions and all foreign countries, and any United States Letters Patent that may be granted therefor.

NOW, THEREFORE, for good and valuable consideration, including salary or payment for the making of inventions, or employee benefits, the receipt of which is hereby acknowledged, and with the intention of being legally bound hereby, we confirm that we have sold, assigned and transferred, and do hereby sell, assign and transfer to said Assignee the entire right, title and interest in and to our invention and patent applications within the United States of America and its territorial possessions, and in and to any Letters Patent of the United States that may be granted therefor, including all divisions, continuations, continuations-in-part, substitutes, patents of addition, reissues, reexaminations, renewals and extensions thereof, together with the right to extend the protection of said United States Letters Patent to the various territorial possessions now owned or which may be hereafter acquired by the United States of America, together with all claims for damages by reason of past infringement of the patent with the right to sue for and collect the same, all said rights to be held and enjoyed by the Assignee for its use and benefit and for the use and benefit of its successors or assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made. And we do hereby request and authorize the United States Commissioner of Patents and Trademarks to issue all said Letters Patent, when granted, in accordance with the terms of this assignment.

We further covenant and agree with the Assignee that we have full and unencumbered title to the invention, patent applications and patent herein assigned, which title we warrant unto the Assignee, and we further agree that, when requested, we will, without demanding any further consideration therefor but at the expense of Assignee, do all lawful and just acts, including the execution and acknowledgement of instruments, that may be or become necessary for obtaining, sustaining or reissuing United States Letters Patent for the said invention and any associated patent applications, and for maintaining and perfecting the Assignee's right to said invention, any associated patent applications and Letters Patent particularly in cases of interference and litigation.

IN WITNESS WHEREOF, we, the said inventors, have executed this Assignment under seal.

Kira Barrett
