**PATENT ASSIGNMENT**

This PATENT ASSIGNMENT ("Assignment") is entered into as of November 5, 2020, by EDUCATION REVOLUTION, LLC a Nevada limited liability company ("Assignor"), in favor of SPEED OF YOU INC., a Delaware corporation ("Assignee") (collectively, the "Parties" and each a "Party").

WHEREAS, Assignor and Assignee are parties to the Transaction Agreement, dated as of November 5, 2020 (the "Transaction Agreement"), pursuant to which Assignor has agreed to provide to Assignee a patent assignment assigning to Assignee all of Assignee's right, title and interest in the patent applications identified and set forth on Schedule A attached hereto (all such patent applications referred to collectively as the "Patents");

WHEREAS, Assignor wishes to transfer to Assignee, and Assignee wishes to acquire from Assignor, all of Assignor's right, title and interest in and to the Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby acknowledged, Assignor hereby agrees:

1. Assignment. Assignor hereby assigns, conveys, transfers and delivers to Assignee and its successors and assigns, and Assignee hereby accepts the assignment, conveyance, transfer and delivery of, all of Assignor's right, title and interest in, to and under the Patents, together with:
  - a. all divisionals, continuations, continuations in part, substitutes, extensions, renewals, reissues, reexaminations, other applications and related cases (in each instance, whether pending, issued, abandoned or filed in the future) that have been or shall be filed anywhere in the world and that are based upon and claim priority to any of the Patents (all of the foregoing, collectively, "Related Cases");
  - b. any inventions and improvements claimed or disclosed in any of the Patents or Related Cases, and any and all letters patent, certificates of invention, design registrations and utility models which may be granted therefor; and
  - c. all causes of action, enforcement rights, infringement, misappropriation or other claims and all other rights (including all rights to pursue damages, injunctive relief and other remedies for past, present and future infringement) based upon, arising out of or relating to any of the Patents or Related Cases.

Pursuant to the foregoing assignment, Assignor hereby acknowledges that each of the Patents and Related Cases shall hereafter be for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this Agreement had not been made. The assignment pursuant to this Section 1 includes, without limitation, (A) the right to register or apply in all countries and regions in the Assignee's name for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for said inventions and improvements; (B) the right to apply for, prosecute, maintain and defend the Patents and Related Cases (including the right to continue any such action underway and to revive any such action previously abandoned) before any public or private agency, office or registrar including by filing reissues, reexaminations, divisions, continuations, continuations-in-part, substitutes, extensions and all other applications included in the Patents and Related Cases; and (C) the right, if any, to claim priority based on the filing dates of any of the Patents or Related Cases under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purpose.

2. Ownership. Assignor hereby acknowledges and agrees that from and after the date hereof, Assignee shall be the exclusive owner of all of Assignor's right, title and interest in, to and under the Patents and Related Cases. Assignee acknowledges Assignor will be provided a license to use the Patents, as provided in a separate license agreement entered into contemporaneous herewith.
3. Further Assurances. Assignor shall, at Assignee's cost and expense, take all actions and execute and deliver such other documents that Assignee may reasonably request to effect the terms of this Assignment and to perfect Assignee's title in, to and under the Patents and the Related Cases, including, without limitation, entering into individual patent assignment agreements for the purposes of evidencing and recording Assignee's rights in the Patents and the Related Cases and filing such assignment agreements at national and regional patent registration offices.
4. Recordation. The Parties agree that Assignee may record this Assignment with the applicable patent authorities.
5. Miscellaneous. This Assignment shall be governed by, and construed in accordance with, the laws of the State of Nevada applicable to contracts made and to be performed entirely in such state without regard to principles of conflicts or choice of laws or any other law that would make the laws of any other jurisdiction other than the State of Nevada applicable hereto. This Assignment may not be supplemented, altered or modified in any manner except by a writing signed by the Parties hereto. The failure of any Party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions. This Assignment shall bind and inure to the benefit of the respective Parties and their assigns, transferees and successors. This Assignment and any amendments hereto may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument.
