ASSIGNMENT

This Assignment made by **Michael Entwistle**, resident of the United Kingdom, having a correspondence address of c/o Urben Technologies Limited, Media House, 2 Sandridge Park, Porters Wood, St. Albans, Hertfordshire, AL3 6PH, United Kingdom; hereinafter referred to as assignor,

WITNESSETH: That,

WHEREAS, I believe I am the original inventor/creator or an original joint inventor/creator of an inventive design described in European Community Design Application No. 8006522-0001, filed on June 16, 2020; and in U.S. Design Patent Application No. 29/762,094 filed on December 15, 2020 entitled **STAND** (with the foregoing European Community design application and U.S. design patent application being collectively referred to as the Applications); and

WHEREAS, **URBEN TECHNOLOGIES LIMITED**, a company duly organized and existing under the laws of the United Kingdom and having a principal place of business at Media House, 2 Sandridge Park, Porters Wood, St Albans, Hertfordshire, AL3 6PH, United Kingdom, hereinafter referred to as Assignee, is desirous of acquiring the entire right, title and interest in and to said inventive design as described in the Applications, and any and all Design Registrations and Letters Patent which shall be granted therefor;

NOW, THEREFORE, To All Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I hereby sell, assign, transfer and set over unto the Assignee, its successors and assigns, the entire right, title and interest in and to the inventive design and the Applications and in and to any and all

foreign applications for design registration and design patents filed on the inventive design based on and claiming priority to any one of more applications of the Applications, and in and to any and all Letters Patent of the United States and design registrations in foreign countries which may hereafter be granted therefor, and in any and to any and all continuations, continuations-in-part, substitutions, divisions or reissues of said Letters Patent and design registrations, the same to be held and enjoyed by the Assignee, for its interest, and for its own use and behalf, and the use and behalf of its successors and assigns, to the full end of the term for which said Letters Patent and design registrations may be granted as fully and entirely as the same would have been held and enjoyed by me had this assignment and sale not been made, and I hereby authorize and empower the Assignee, its successors, assigns or nominees to file applications for any Letters Patent, design registration, and other form of protection on said inventive design in its own name or in the name of its successor, assignee, or nominee, in any and all countries where it may desire to file such applications and where said applications may be filed by another than the inventor/creator;

And for the consideration aforesaid, I further covenant and agree that, at the time of the execution and delivery of these presents, I have the unencumbered right and authority to make this assignment, and I have not executed any prior assignment(s) or created any encumbrances relating to any one or more of the Applications mentioned above to any person or entity other than the Assignee identified herein;

And for the consideration aforesaid, I hereby covenant and agree to and with the Assignee, its successors and assigns, that I will, whenever its counsel or the counsel of its successors and assigns, learned in the law, shall advise that an amendment, division, continuation, continuation-in-part, or substitution of, or any other proceeding in connection with

said applications, including interference proceedings, is lawful and desirable, sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for the procurement of valid Letters Patent and design registrations for said inventive design, or for the reissue of the same without charge to the Assignee, its successors or assigns, but at its or their expense, and I hereby covenant and agree to sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for procurement of Letters Patent, design registration, or other form of protection, for said inventive design in countries foreign to the United States, and for further investing or confirming the right and title therein to the Assignee, its successors, assignee, or nominee, without charge to the Assignee, its successor, assignee or nominee, but at its or their own expense;

I hereby request the Commissioner for Patents and other applicable authorities to issue the Letters Patent and design registrations in accordance with this instrument;

IN WITNESS WHEREOF, I have hereunto set my hand and seal.
