IP SECURITY AGREEMENT

December 17, 2020

FOR GOOD AND VALUABLE CONSIDERATION, the receipt and sufficiency of which are hereby acknowledged, RYTEC CORPORATION, an Illinois corporation (the “**Grantor**”) with principal offices at One Cedar Parkway, W223N16601 Cedar Parkway, Jackson, WI 53037-0403, hereby mortgages, pledges and grants BMO HARRIS BANK N.A., a national banking association (“**Lender**”) with principal offices at 111 West Monroe Street, Chicago, Illinois 60603, as collateral for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Obligations of Grantor, a security interest in all of its rights, titles and interests in, to and under the following collateral, whether now owned or hereafter acquired (collectively, the “**IP Collateral**”):

- (a) all trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, certification marks, collective marks, logos, other source of business identifiers, prints and labels on which any of the foregoing have appeared or appear, designs and general intangibles of a like nature (each of the foregoing, a “**Trademark**”), all registrations and all applications in connection therewith, whether pending or in preparation for filing, including all common law rights in any Trademark and registrations and applications in the United States Patent and Trademark Office or in any office or agency of the United States of America or any state thereof or any foreign country, including those listed on Schedule A;
- (b) all Trademark licenses;
- (c) any and all patents and patent applications, including those listed on Schedule A, and all inventions and improvements described and claimed therein;
- (d) all patent licenses;
- (e) all reissues, divisions, continuations, renewals, extensions, or continuations in part of any item described in clause (c);
- (f) all of the goodwill of the business connected with the use of, and symbolized by, any item described in clause (a) or (b);
- (g) all income, royalties, damages, claims and payments now or hereafter due or payable under and with respect to any item described in clause (a), (b), (c) or (d), including, without limitation, damages and payments for past and future infringements thereto;
- (h) all proceeds of, and rights associated with, the foregoing, including, without limitation any claim by the Grantor against third parties for past, present or future (1) infringement or dilution of any Trademark, (2) injury to the goodwill associated with any Trademark, (3) infringement of any patent, or (4) breach of a patent license or a Trademark license, the foregoing including any Trademark, Trademark registration, Trademark license, patent, patent registration or patent license referred to on Schedule A;
- (i) all copyrights and all copyright licenses, all registrations and all applications in connection therewith, whether pending or in preparation for filing, including all common law rights in any copyright and registrations and applications in the United States Copyright Office or in any office or agency of the United States of America or any state thereof or any foreign country,

including, without limitation, those referred to on Schedule B hereto (each of the foregoing, a “**Copyright**”);

(j) all renewals, reversions and extensions of Copyrights; and

(k) all income, royalties and proceeds at any time due or payable or asserted under and with respect to any of the Copyrights described in clause (i) or (j), including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

Notwithstanding anything herein to the contrary, in no event shall the IP Collateral include, or the security interest granted under clause (a) hereof attach to, any “intent-to-use” application for registration of a Trademark filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing of a “Statement of Use” pursuant to Section 1(d) of the Lanham Act or an “Amendment to Allege Use” pursuant to Section 1(c) of the Lanham Act with respect thereto, solely to the extent, if any, that, and solely during the period, if any, in which, the grant of a security interest therein would impair the validity or enforceability of any registration that issues from such intent-to-use application under applicable federal law.

THIS IP SECURITY AGREEMENT (this “**Agreement**”) is made to secure the satisfactory performance and payment of all Obligations under the (i) Credit Agreement, dated as of the date hereof, among the Grantor, the guarantors party thereto and Lender (as amended, restated, supplemented or otherwise modified from time to time, the “**Credit Agreement**”), (ii) the Security Agreement, dated as of the date hereof, among the Grantor, the guarantors party thereto and the Lender (as amended, restated, supplemented or otherwise modified from time to time, the “**Security Agreement**”), and (iii) other Loan Documents described therein. Capitalized terms used but not defined herein have the respective meanings assigned to such terms in the Credit Agreement and the Security Agreement. When the Commitments are terminated, all Letters of Credit have expired, and the principal of and interest on the Loans and all other amounts payable by the Grantor and the other Loan Parties under the Credit Agreement, the Security Agreement and all other Loan Documents shall have been paid in full in cash, the security interest granted hereby shall automatically terminate and all rights to the IP Collateral shall revert to the Grantor. Upon any such termination, Lender shall, at the Grantor’s request, execute, acknowledge and deliver to the Grantor an instrument in writing releasing the security interest in the IP Collateral granted under this Agreement.

This security interest has been made in conjunction with the security interest granted to Lender under the Security Agreement. The rights and remedies of Lender with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in, the Security Agreement, the terms and provisions of which are incorporated herein by reference. If any provision of this Agreement conflicts with the Security Agreement, the provisions of the Security Agreement shall govern.

THIS AGREEMENT AND ANY CLAIM, CONTROVERSY, DISPUTE OR CAUSE OF ACTION (WHETHER IN CONTRACT, TORT OR OTHERWISE) BASED UPON, ARISING OUT OF OR RELATING TO THIS AGREEMENT, AND THE RIGHTS AND DUTIES OF THE PARTIES HERETO, SHALL BE GOVERNED BY AND CONSTRUED AND DETERMINED IN ACCORDANCE WITH THE INTERNAL LAWS OF THE STATE OF ILLINOIS AND APPLICABLE FEDERAL LAW.

Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.
