## ASSIGNMENT

WHEREAS, I, Jessica Shartouny, of Atlanta, Georgia, have invented a certain invention, along with others, as described in the following patent applications:

PCT Patent Application No. PCT/US2017/064330 , filed on December 1, 2017, entitled  
“POLYPEPTIDES FOR MANAGING VIRAL INFECTIONS,”

which applications are collectively referred to as “the patent applications.”

WHEREAS, Emory University, an entity organized under the laws of the State of Georgia, having a place of business at Office of Technology Transfer, 1599 Clifton Road NE, 4th Floor, Atlanta, Georgia 30322, United States of America, desires to acquire an interest therein:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, I, Jessica Shartouny hereby sell, assign and transfer to Emory University, the full and exclusive right, title and interest in and to said invention, patent application and patent rights throughout the world, including foreign patent priority rights, the right to file and prosecute International Applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; said invention, patent application and letters patent in this or any foreign country, and all corresponding non-provisional applications, divisions, continuations, continuations-in-part, reissues and extensions thereof, to be held and enjoyed by Emory University, for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted by the United States or any foreign country, as fully and entirely as the same would have been held by me had this assignment and sale not been made, and covenant that I have full right so to do, and agree that I will communicate to Emory University, or its successors and assigns, any facts known to me respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and do everything possible to aid Emory University, its successors and assigns to obtain and enforce proper patent protection for said invention in the United States or any foreign country.

I confirm that at the time the invention was made, I was under an obligation to assign the invention to Emory University.
