PATENT APPLICATION ASSIGNMENT

THIS ASSIGNMENT, effective as of December 20, 2020, is by and between:

Tetra Ventures LLC
100 Jersey Avenue, Suite B-201
New Brunswick, NJ 08901

hereinafter referred to as the "Assignor," and
Tetrus Corp., a Delaware corporation
100 Jersey Avenue, Suite B-201
New Brunswick, NJ 08901

hereinafter referred to as the "Assignee."

The Assignor(s) is the owner, as recorded at reel/frame 052140/0516, recorded March 17, 2020 in the records of the United States Patent and Trademark Office, of an invention titled:

REAL TIME INTERVENTION PLATFORM FOR AT-RISK CONDUCT

for which the following patent application was filed:

US patent application No. 16/805,959, dated March 2, 2020 and claiming benefit of US provisional patent application 62/812,653 dated March 1, 2019

(hereafter "the Patent Application").

By this Agreement, Assignor(s) convey(s) to Assignee its/their entire interest, right, title, property and benefit in and to the Patent Application.

Therefore, for good and valuable consideration furnished by Assignee to Assignor, the receipt and sufficiency of which is expressly acknowledged, the Assignor hereby sells, assigns, transfers, and conveys to the Assignee (1) all of the Assignor's entire interest, right, title, property and benefit in and to this Patent Application, and any other patent applications claiming priority to this Patent Application filed at the United States Patent and Trademark Office, or filed with any other national or international patent granting authority under the Paris Convention or otherwise; (2) the sole right to collect any damages for past, current and future infringement of any and all issued patents whether US or Foreign derived from this Patent Application; and (3) the right to sue for past, current and future infringement of any and all issued patents, whether US or foreign, derived from this Patent Application.

The Assignor warrants that the Assignor has not conveyed to any other party any interest, right, title, property or benefit in this Patent Application, or to any patents or any license to make, use, or sell anything embodying or utilizing any of this invention; and that Assignor has good right to assign this [invention and] Patent Application to the Assignee without encumbrance; and that Assignor is aware of no claim to the contrary.

Assignor hereby binds itself, its heirs, legal representatives, and assigns ("Assignor and Successors"), to do, upon Assignee's request and at Assignee's expense, and without additional consideration to Assignor and Successors, any acts reasonably necessary to assure that this Patent Application, and any

successor patent applications or issued patents derived from this Patent Application, either United States or foreign, shall be granted, held, and enjoyed by Assignee. Assignor and Successors will execute and deliver to Assignee any documents required for the foregoing. Assignor and Successors will provide Assignee with any documents, data, samples, or any other information or physical exhibits in its control reasonably requested by Assignee to establish evidence or otherwise assist in the prosecution and grant of this Patent Application at the United States or any foreign patent filing, examination, or granting authority. Assignor and Successors will testify and reasonably assist, at Assignee's expense, in any legal proceeding, US or foreign, relating to this or Patent Application.

This instrument will become binding when any one or more counterparts hereof, individually or taken together, bears the signature of each Assignor and Assignee party. This instrument may be conveyed by electronic means, including by facsimile or in scanned electronic format transmitted by email or other electronic means, which are deemed equivalent to an original executed copy.
