QUITCLAIM ASSIGNMENT

WHEREAS, **DIGITAL MEDIA SHARE LLC**, a Texas limited liability company (hereinafter called "ASSIGNEE") and **EZRI, INC.**, a California corporation ("ASSIGNOR") (hereinafter ASSIGNEE and ASSIGNOR may be collectively called the "PARTIES") have previously entered into certain agreements relating to certain intellectual property rights;

WHEREAS the PARTIES wish to clarify that **DIGITAL MEDIA SHARE LLC** was intended to hold all right, title and interest, in certain intellectual property rights, free from all encumbrances;

NOW therefore, effective nunc pro tunc to November 18, 2020 ("the Effective Date"), the PARTIES hereby enter into this Quitclaim Assignment (hereinafter called "Agreement") as follows:

1.) In consideration of the mutual covenants and agreements set forth herein and in the parties' prior agreements, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, ASSIGNOR hereby irrevocably sell, assign, transfer, convey, and quitclaim to ASSIGNEE, and its successors and assigns, and ASSIGNEE hereby accepts, any and all of ASSIGNOR'S right, title and interest throughout the world in and to those United States patents and patent applications, and International patent applications listed on **APPENDIX A** as attached, and including:

- a. All applications for patent or like protection on said inventions that have now been or may in the future be made by us or our legal representatives, including any continuation, continuation-in-part and any other utility applications that may be based on these inventions, whether in the United States of America or any other place anywhere in the world;
- b. All patents and like protection that have now been or may in the future be granted on said inventions to us or our legal representatives, whether in the United States of America or in any other country or place anywhere in the world;
- c. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present and future laws and statutes;

- d. All rights of action on account of past, present and future unauthorized use of said inventions and for infringement of said patents and like protection;
- e. The right in ASSIGNEE to file in its name applications for patents and like protection for said inventions in any country or countries foreign to the United States; and
- f. All international rights of priority associated with said inventions, applications, patents and like protection.

(collectively, the "ACQUIRED RIGHTS").

2.) Each of the PARTIES hereby unconditionally and irrevocably terminates, releases and discharges any and all security interests that it has or may have in any of the ACQUIRED RIGHTS.

3.) The PARTIES acknowledge and agree that, in this Agreement, ASSIGNOR is selling, assigning, transferring, conveying, releasing, and discharging whatever interest ASSIGNOR has or may have in the ACQUIRED RIGHTS, if any, without any representations or warranties of any kind. However, for the purposes of clarity, this Agreement does not relieve any party of any representations or warranties arising out of or set forth in any prior agreement between one or more of the PARTIES.

4.) ASSIGNOR covenant that we, our heirs, legal representatives, assigns, administrators, and executors, will, at the expense of ASSIGNEE, its successors and assigns, execute all papers and perform such other acts as may be reasonably necessary to give ASSIGNEE, its successors and assigns, the full benefit of this Assignment.

5.) This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this Agreement delivered by facsimile, email, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Agreement.
