AGREEMENT REGARDING TRADE SECRETS, CONFIDENTIAL INFORMATION, AND ASSIGNMENT OF INVENTIONS

I. INTRODUCTION

In consideration for my becoming employed and compensated by Leap Motion and/or any of its past, present, and future parent companies, subsidiaries, predecessors, successors, affiliates, and acquisitions (collectively "the Company"), I agree as follows:

I acknowledge that the nature of my employment with the Company permits me to have access to certain of its trade secrets and confidential and proprietary information. Nevertheless, such information is, and shall always remain, the sole and exclusive property of the Company. Any unauthorized acquisition, disclosure or use of this information would be wrongful and would cause the Company irreparable harm. I also acknowledge that if in the course of my employment I develop inventions (as defined herein), I agree to assign these inventions to the Company.

II. TRADE SECRETS AND CONFIDENTIAL INFORMATION

During the course of my employment I may acquire knowledge of Confidential Information, including the Company's Trade Secrets and other proprietary information relating to its business, business methods, personnel, and customers. "Trade Secrets" are defined as information, including but not limited to, a formula, pattern, compilation, program, device, method, technique, or process, that: (1) derives independent economic value, actual or potential, from not being generally known to the public or to other persons who can obtain economic value from its disclosure or use and (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy. The Company's Trade Secrets include, but are not limited to, the following:

- the names, address, and contact information of the Company's customers and prospective customers, as well any other personal or financial information relating to any customer or prospect, including, without limitation, account numbers, balances, portfolios, maturity and/or expiration or renewal dates, loans, policies, investment activities, purchasing practices, and objectives;
- any information concerning the Company's operations, including without limitation, information related to its methods, services, pricing, costs, margins and mark ups, finances, practices, strategies, business plans, agreements, decision-making, systems, technology, policies, procedures, marketing, sales, techniques and processes;
- any other proprietary and/or confidential information relating to the Company's customers, employees, products, services, sales, technologies, or business affairs.

I understand that Records of the Company also constitute Confidential Information and that my obligation to maintain the confidentiality thereof continues at all times during and after my employment. "Records" include, but are not limited to, original, duplicated, computerized, memorized, handwritten or any other form of information, whether contained in materials provided to me by the Company, or by any institution acquired by the Company, or compiled by me in any form or manner including information in documents or electronic devices, such as software, flowcharts, graphs, spreadsheets, resource manuals, videotapes, calendars, day timers, planners, rolodexes, or telephone directories maintained in personal computers, laptop computers, personal digital assistants or any other device. These records do not become any less confidential or proprietary to the Company because I may commit some of them to memory or because I may otherwise maintain them outside of the Company's offices.

I agree that Confidential Information of the Company is to be used by me solely and exclusively for the purpose of conducting business on behalf of the Company. I am expected to keep such Confidential Information confidential and not to divulge, use, or disclose this information except for that purpose. If I resign or am terminated from my employment for any reason, I agree to immediately return to the Company all Records and Confidential Information, including information maintained by me in my office, personal electronic devices, and/or at home.

III. COMPLIANCE WITH OTHER AGREEMENTS

It is understood that I have complied and will continue to comply with any other policies covering trade secrets, inventions, confidential information or solicitation from any former employer. I certify that, to the best of my information and belief, I am not a party to any other agreement that will interfere with my full compliance with this Agreement, including any agreement relating to the non-disclosure of information of any other individual or entity, or that prior to my employment I disclosed any such agreements to the Company for proper legal review. I also certify

that I will not disclose to the Company, or induce the Company to use, any confidential or proprietary information or material belonging to any previous employer or others. I agree not to enter into any agreement either written or oral that conflicts with any provision of this Agreement.

IV. ASSIGNMENT OF INVENTIONS

I agree to disclose to the Company promptly in writing complete information regarding all Inventions that I make, conceive or first reduce to practice (alone or in conjunction with others) during my employment with the Company. For the purposes of this Assignment, the term "Invention" means any invention, discovery, design, formula, modification, improvement, new idea, business method, process, algorithm, software program, know how or trade secret, whether recorded in a written document, electronically or not recorded at all and whether or not copyrightable or patentable. In addition, with respect to any such Invention that falls into one (or both) of the categories below, I shall automatically and irrevocably and worldwide assign to the Company, or its designee, my entire right, title and interest (including any intellectual property rights) in and to such Invention. I further waive any moral rights I may have in the Inventions, to the fullest extent permitted by law. The categories of Inventions that are subject to my promise to assign under this Agreement are: (1) All Inventions that relate to the subject matter of projects I worked on during the period of my employment with the Company whether or not I made, conceived or first reduced the Inventions to practice during normal working hours; and (2) All Inventions involving the use of any time, material, information, or facility of the Company.

By entering into this Assignment, I understand that I am not conveying any rights in Inventions I may have made, conceived or first reduced to practice before my employment with the Company ("Prior Inventions"). If I claim ownership in any Prior Inventions, I have identified and provided a non-confidential description of each such Prior Invention in the space provided below (and on additional pages as necessary):

Notwithstanding the foregoing, my obligation to assign Inventions as set forth above does not apply to an Invention that I developed entirely on my own time without using the Company's equipment, supplies, facilities, or trade secret information except for those Inventions that either: (i) relate at the time of conception or reduction to practice of the Invention to the Company's business, or actual or demonstrably anticipated research or development of the Company; or (ii) result from any work performed by me for the Company. (*California residents only*: I agree that this statement is intended to meet the Company's obligations to comply with the requirements of California Labor Code sections 2870-2872).

I further agree, without charge and at the Company's expense, to give the Company all assistance it reasonably requires to evidence, establish, maintain, perfect, protect, and use the rights to the Inventions I have agreed herein to assign to it. In particular but without limitation I agree to sign all documents and supply all information that the Company may deem necessary or desirable to (i) transfer or record the transfer of my entire right, title, and interest in the assigned Inventions; and (ii) enable the Company to obtain patent protection for such Inventions anywhere in the world.

V. DISCLOSURE OF SUBSEQUENT INVENTIONS

I will also disclose to the Authorized Company Officer(s) listed in my Company handbook all inventions made, conceived, reduced to practice, or developed by me within six months of the termination of my employment with the Company that resulted from my prior work with the Company. Such disclosures shall be received by the Company in confidence and do not extend the assignment of inventions disclosed beyond that required by law.

VI. EMPLOYMENT AT WILL

I understand that my employment with the Company is "at will" and nothing in this document changes, alters or modifies my "at will" status. My employment at will status may not be changed except in writing, signed by me and an executive officer of the Company.

VII. PARTIAL INVALIDITY

If any provision of this Agreement is held to be unenforceable by a court of competent jurisdiction, such provision shall be enforced to the greatest extent permitted and the remainder of this Agreement shall remain in full force and effect.

VIII. CHOICE OF LAW/INTEGRATION/SURVIVAL

This Agreement and any dispute, controversy or claim which arises under or relates in any way to it shall be governed by the law of state where the incident(s) giving rise to the dispute or claim arose. This Agreement supersedes any prior written or verbal agreements pertaining to the subject matter herein, and is intended to be a final expression of our Agreement with respect to the terms contained herein. There may be no modification of this Agreement except in writing signed by me and an executive officer of the Company. This Agreement shall survive my employment by the Company; inure to the benefit of successors and assigns of the Company, and is binding upon my heirs and legal representatives.

ACKNOWLEDGMENT OF INVENTION ASSIGNMENT AGREEMENT

I acknowledge that I have read, understand, and received a copy of this Agreement and will abide by its terms.
